

Belmont Theta Income Fund
Institutional Class Shares (BTIFX)

A Series of Valued Advisers Trust
Statement of Additional Information
May 31, 2024

This Statement of Additional Information (“SAI”) is not a prospectus. It should be read in conjunction with the Prospectus (the “Prospectus”) of the Belmont Theta Income Fund (the “Fund”) dated May 31, 2024. This SAI incorporates by reference the Fund’s Annual Report to Shareholders for the fiscal year ended January 31, 2024 (“Annual Report”). A free copy of the Prospectus or Annual Report can be obtained by writing Ultimus Fund Solutions, LLC, the Fund’s transfer agent, at P.O. Box 46707, Cincinnati, Ohio 45246-0707, or by calling Shareholder Services at (800) 789-1087.

DESCRIPTION OF THE TRUST AND THE FUND

The Belmont Theta Income Fund (the “Fund”) is an open-end diversified series of Valued Advisers Trust (the “Trust”). The Trust is a management investment company established under the laws of Delaware by an Agreement and Declaration of Trust dated June 13, 2008 (the “Trust Agreement”). The Trust Agreement permits the Trustees to issue an unlimited number of shares of beneficial interest of separate series without par value. The Fund is one of a series of funds authorized by the Trustees. The Fund currently offers one class of shares: Institutional Class Shares. The Fund’s investment adviser is Belmont Capital, LLC d/b/a Belmont Capital Group™ (the “Adviser”).

The Fund does not issue share certificates. All shares are held in non-certificate form registered on the books of the Fund and its transfer agent for the account of the shareholders. Each share of a series represents an equal proportionate interest in the assets and liabilities belonging to that series with each other share of that series and is entitled to such dividends, and distributions out of income belonging to the series as are declared by the Trustees. The shares do not have cumulative voting rights or any preemptive or conversion rights, and the Trustees have the authority from time to time to divide or combine the shares of any series into a greater or lesser number of shares of that series so long as the proportionate beneficial interest in the assets belonging to that series and the rights of shares of any other series are in no way affected. In case of any liquidation of a series, the holders of shares of the series being liquidated will be entitled to receive as a class a distribution out of the assets, net of the liabilities, belonging to that series. Expenses attributable to any series are borne by that series. Any general expenses of the Trust not readily identifiable as belonging to a particular series are allocated by or under the direction of the Trustees in such manner as the Trustees determine to be fair and equitable. No shareholder is liable to further calls or to assessment by the Trust without his or her express consent.

Any Trustee of the Trust may be removed by vote of the shareholders holding not less than two-thirds of the outstanding shares of the Trust. The Trust does not hold an annual meeting of shareholders. When matters are submitted to shareholders for a vote, each shareholder is entitled to one vote for each whole share he or she owns and fractional votes for fractional shares he or she owns. All shares of the Fund have equal voting rights and liquidation rights. The Trust Agreement can be amended by the Trustees, except that certain amendments that adversely affect the rights of shareholders must be approved by the shareholders affected. All shares of the Fund are subject to involuntary redemption if the Trustees determine to liquidate the Fund. An involuntary redemption will create a capital gain or a capital loss, which may have tax consequences about which you should consult your tax adviser.

For information concerning the purchase and redemption of shares of the Fund, see “How to Buy Shares” and “How to Redeem Shares” in the Fund’s Prospectus. For a description of the methods used to determine the share price and value of the Fund’s assets, see “Determination of Net Asset Value” in the Prospectus and this SAI. The Fund has authorized one or more brokers to receive on its behalf purchase and redemption orders. Such brokers are authorized to designate other intermediaries to receive purchase and redemption orders on the Fund’s behalf. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or, if applicable, a broker’s authorized designee, receives the order.

Customer orders will be priced at the Fund's net asset value per share ("NAV") next computed after they are received by an authorized broker or the broker's authorized designee and accepted by the Fund. The performance of the Fund may be compared in publications to the performance of various indices and investments for which reliable performance data is available. The performance of the Fund may be compared in publications to averages, performance rankings, or other information prepared by recognized mutual fund statistical services. The Annual Report contains additional performance information and will be made available to investors upon request and without charge.

ADDITIONAL INFORMATION ABOUT FUND INVESTMENTS AND RISK CONSIDERATIONS

This section contains additional information about the investments the Fund may make and some of the techniques it may use. It is not the Fund's policy to invest in illiquid securities.

A. Derivative Instruments. The Fund may invest in derivative instruments, which are financial instruments whose performance and value are derived, at least in part, from another source, such as the performance of an underlying asset or security. Derivatives may generally be purchased for a variety of purposes, including hedging, to enhance returns, as a substitute for purchasing or selling securities, to maintain liquidity or in anticipation of changes in the composition of its portfolio holdings. The Fund's transactions in derivative instruments may include, among others, the purchase and writing of options.

The Fund seeks to achieve its goal primarily through a strategy of writing collateralized put spread options on U.S. indices, including the S&P 500® Index. Options trading is a highly specialized activity that entails greater than ordinary investment risk. Options may be more volatile than the underlying instruments, and therefore, on a percentage basis, an investment in options may be subject to greater fluctuation than an investment in the underlying instruments themselves.

A call option for a particular security gives the purchaser of the option the right to buy, and the writer (seller) the obligation to sell, the underlying security at the stated exercise price at any time prior to the expiration of the option, regardless of the market price of the security. The premium paid to the writer is in consideration for undertaking the obligation under the option contract. A put option for a particular security gives the purchaser the right to sell the security at the stated exercise price at any time prior to the expiration date of the option, regardless of the market price of the security.

Stock index options are put options and call options on various stock indices. In most respects, they are identical to listed options on common stocks. The primary difference between stock options and index options occurs when index options are exercised. In the case of stock options, the underlying security, common stock, is delivered. However, upon the exercise of an index option, settlement does not occur by delivery of the securities comprising the index. The option holder who exercises the index option receives an amount of cash if the closing level of the stock index upon which the option is based is greater than, in the case of a call, or less than, in the case of a put, the exercise price of the option. This amount of cash is equal to the difference between the closing price of the stock index and the exercise price of the option expressed in dollars times a specified multiple. A stock index fluctuates with changes in the market value of the

stocks included in the index. For example, the Fund will invest in stock index options based on the S&P 500® Index as part of its principal investment strategies.

The Fund's obligation to sell an instrument subject to a call option written by it, or to purchase an instrument subject to a put option written by it, may be terminated prior to the expiration date of the option by the Fund's execution of a closing purchase transaction, which is effected by purchasing on an exchange an option of the same series (*i.e.*, same underlying instrument, exercise price and expiration date) as the option previously written. A closing purchase transaction will ordinarily be effected to realize a profit on an outstanding option, to prevent an underlying instrument from being called, to permit the sale of the underlying instrument or to permit the writing of a new option containing different terms on such underlying instrument. The cost of such a liquidation purchase plus transactions costs may be greater than the premium received upon the original option, in which event the Fund will have incurred a loss in the transaction. There is no assurance that a liquid secondary market will exist for any particular option. An option writer unable to effect a closing purchase transaction will not be able to sell the underlying instrument or liquidate the assets held in a segregated account, as described below, until the option expires or the optioned instrument is delivered upon exercise. In such circumstances, the writer will be subject to the risk of market decline or appreciation in the instrument during such period.

If an option purchased by the Fund expires unexercised, the Fund realizes a loss equal to the premium paid. If the Fund enters into a closing sale transaction on an option purchased by it, the Fund will realize a gain if the premium received by the Fund on the closing transaction is more than the premium paid to purchase the option or a loss if it is less. If an option written by the Fund expires on the stipulated expiration date or if the Fund enters into a closing purchase transaction, it will realize a gain (or loss if the cost of a closing purchase transaction exceeds the net premium received when the option is sold). If an option written by the Fund is exercised, the proceeds of the sale will be increased by the net premium originally received and the Fund will realize a gain or loss.

Certain Risks Regarding Options. There are several risks associated with transactions in options. For example, there are significant differences between the securities and options markets that could result in an imperfect correlation between these markets, causing a given transaction not to achieve its objectives. In addition, a liquid secondary market for particular options, whether traded over-the-counter or on an exchange, may be absent for reasons which include the following: there may be insufficient trading interest in certain options; restrictions may be imposed by an exchange on opening transactions or closing transactions or both; trading halts, suspensions or other restrictions may be imposed with respect to particular classes or series of options or underlying securities or currencies; unusual or unforeseen circumstances may interrupt normal operations on an exchange; the facilities of an exchange or the Options Clearing Corporation may not at all times be adequate to handle current trading value; or one or more exchanges could, for economic or other reasons, decide or be compelled at some future date to discontinue the trading of options (or a particular class or series of options), in which event the secondary market on that exchange (or in that class or series of options) would cease to exist, although outstanding options that had been issued by the Options Clearing Corporation as a result of trades on that exchange would continue to be exercisable in accordance with their terms.

Successful use by the Fund of options on stock indices will be subject to the ability of the Adviser to correctly predict movements in the directions of the stock market. This requires different skills and techniques than predicting changes in the prices of individual securities. In addition, the Fund's ability to effectively hedge all or a portion of the securities in its portfolio, in anticipation of or during a market decline, through transactions in put options on stock indices, depends on the degree to which price movements in the underlying index correlate with the price movements of the securities held by the Fund. Inasmuch as the Fund's securities will not duplicate the components of an index, the correlation will not be perfect. Consequently, the Fund bears the risk that the prices of its securities being hedged will not move in the same amount as the prices of its put options on the stock indices. It is also possible that there may be a negative correlation between the index and the Fund's securities that would result in a loss on both such securities and the options on stock indices acquired by the Fund.

The hours of trading for options may not conform to the hours during which the underlying securities are traded. To the extent that the options markets close before the markets for the underlying securities, significant price and rate movements can take place in the underlying markets that cannot be reflected in the options markets. The purchase of options is a highly specialized activity that involves investment techniques and risks different from those associated with ordinary portfolio securities transactions. The purchase of stock index options involves the risk that the premium and transaction costs paid by the Fund in purchasing an option will be lost as a result of unanticipated movements in prices of the securities comprising the stock index on which the option is based.

There is no assurance that a liquid secondary market on an options exchange will exist for any particular option, or at any particular time, and for some options no secondary market on an exchange or elsewhere may exist. If the Fund is unable to close out a call option on securities that it has written before the option is exercised, the Fund may be required to purchase the optioned securities in order to satisfy its obligation under the option to deliver such securities. If the Fund was unable to effect a closing sale transaction with respect to options on securities that it has purchased, it would have to exercise the option in order to realize any profit and would incur transaction costs upon the purchase and sale of the underlying securities.

Cover for Options Positions. Selling options exposes the Fund to an obligation to another party. The Fund will not enter into any such transactions unless it owns either (i) an offsetting ("covered") position in securities or other options or (ii) cash or liquid securities with a value sufficient at all times to cover its potential obligations not covered as provided in (i) above. The Fund will comply with SEC guidelines regarding cover for these instruments and, if the guidelines so require, set aside cash or liquid securities in a segregated account with the Custodian in the prescribed amount. Under current SEC guidelines, the Fund will segregate assets to cover transactions in which the Fund writes or sells options.

Assets used as cover or held in a segregated account cannot be sold while the position in the corresponding option is open, unless they are replaced with similar assets. As a result, the commitment of a large portion of the Fund's assets to cover or segregated accounts could impede portfolio management or the Fund's ability to meet redemption requests or other current obligations.

The use of derivative instruments is subject to applicable regulations of the U.S. Securities and Exchange Commission (the “SEC”), the Commodity Future Trading Commission (the “CFTC”), various state regulatory authorities and, with respect to exchange-traded derivatives, the several exchanges upon which they are traded. In particular, under Rule 18f-4 under the Investment Company Act of 1940, as amended (the “Derivatives Rule”), a registered investment company’s derivatives exposure, which includes short positions for this purpose, is limited through a value-at-risk test and the Derivatives Rule requires the adoption and implementation of a derivatives risk management program for certain derivatives users. This new rule became operative in August 2022. The Derivatives Rule prescribes specific “value at risk” or “VaR” (further defined below) leverage limits that apply to a Fund with derivatives and other applicable transactions (although a Fund may qualify for the Limited Derivatives User Exception (as defined below)). VaR is an estimate of potential losses on an instrument or portfolio over a specified time horizon and at a given confidence level. A Fund may apply a relative VaR test or an absolute VaR test if the Fund’s derivative risk manager, if applicable, determines that a designated reference portfolio would not provide an appropriate reference portfolio for purposes of the relative VaR test. The limit under the relative VaR test is 200% of the VaR of a designated reference portfolio, which, very generally, may be a designated unleveraged index or the Fund’s securities portfolio excluding derivatives. If applicable, the limit under the absolute VaR test is 20% of the value of a Fund’s net assets. The Derivatives Rule also requires a Fund, if applicable, to appoint a derivatives risk manager (“DRM”), maintain a derivatives risk management program (“DRMP”) designed to identify, assess, and reasonably manage the risks associated with transactions covered by the rule, and abide by certain Board of Trustees (“Board”) and other reporting obligations and recordkeeping requirements. However, subject to certain conditions, limited derivatives users (as defined in the Derivatives Rule) are not subject to the full requirements of the Derivatives Rule.

The Fund has implemented a DRMP to meet the relevant requirements, including designation of a DRM who has been approved by the Board, including a majority of the Independent Trustees. The Fund has adopted procedures for investing in derivatives and other transactions in compliance with the Derivatives Rule. Compliance with the Derivatives Rule could adversely affect the value or performance of the Fund. Limits or restrictions applicable to the counterparties or issuers, as applicable, with which the Fund may engage in derivative transactions could also limit or prevent the Fund from using certain instruments. Borrowing will tend to exaggerate the effect on net asset value (“NAV”) of any increase or decrease in the market value of the Fund’s portfolio. The Derivatives Rule could limit the Fund’s ability to engage in certain derivatives transactions and/or increase the costs of such derivatives transactions, which could adversely affect the value or performance of the Fund. Moreover, there may be asset coverage requirements for certain arrangements. In order to engage in certain transactions in derivatives, the Fund may be required to hold offsetting positions or to hold cash or liquid securities in a segregated account or designated on the Fund’s books. Changes in the value of a derivative may also create margin delivery or settlement payment obligations for the Fund. In addition, the Fund’s ability to use derivative instruments may be limited by tax considerations.

B. Cash Investments. When the Adviser believes market, economic or political conditions are unfavorable for investors, the Adviser may invest up to 100% of the Fund’s net assets in cash, cash equivalents or other short-term investments. Unfavorable market or economic conditions may include excessive volatility or a prolonged general decline in the securities markets, or the U.S. economy. The Adviser also may invest in these types of securities or hold cash while looking for suitable investment opportunities or to maintain liquidity.

C. Obligations Backed by the U.S. Government. U.S. government obligations include the following types of securities:

1. **U.S. Treasury Securities.** U.S. Treasury securities include direct obligations of the U.S. Treasury, such as Treasury bills, notes and bonds. For these securities, the payment of principal and interest is unconditionally guaranteed by the U.S. government, and thus they are of the highest possible credit quality. Such securities are subject to variations in market value due to fluctuations in interest rates, but, if held to maturity, will be paid in full.

2. **Federal Agency Securities.** The securities of certain U.S. government agencies and government sponsored entities are guaranteed as to the timely payment of principal and interest by the full faith and credit of the U.S. government. Such agencies and entities include the Government National Mortgage Association (Ginnie Mae), Veteran's Administration (VA), the Federal Housing Administration (FHA), the Export/Import Bank, the Overseas Private Investment Corporation (OPIC), the Commodity Credit Corporation (CCC), and the Small Business Administration (SBA).

D. Other Federal Agency Obligations. Additional federal agency securities are not either direct obligations of, nor guaranteed by, the U.S. government. These obligations include securities issued by certain U.S. government agencies and government sponsored entities. However, they generally involve some form of federal sponsorship: some operate under a government charter; some are backed by specific types of collateral; some are supported by the issuer's right to borrow from the Treasury; and others are supported only by the credit of the issuing government agency or entity. These agencies and entities include, but are not limited to: Federal Home Loan Bank, Federal Home Loan Mortgage Corporation (Freddie Mac), Federal National Mortgage Association (Fannie Mae), Tennessee Valley Authority, and Federal Farm Credit Bank System.

E. Money Market Instruments. The Fund may seek to minimize risk by investing in money market instruments, which are high-quality, short-term securities. Although changes in interest rates may change the market value of a security, the Funds expect those changes to be minimal with respect to those securities, which are often purchased for defensive purposes. However, even though money market instruments are generally considered to be high-quality, low risk investments, recently a number of issuers of money market and money market-type instruments have experienced financial difficulties, leading in some cases to rating downgrades and decreases in the value of their securities.

F. Temporary Investments. To maintain cash for redemptions and distributions and for temporary defensive purposes, the Fund may invest in money market mutual funds and in investment grade short-term fixed income securities including short-term U.S. government securities, negotiable certificates of deposit, commercial paper, banker's acceptances and repurchase agreements. The Fund may also invest in futures, options, shorts and foreign currency hedging as a defensive measure. To the extent that the Fund engages in a temporary, defensive strategy, the Fund may not achieve its investment objective.

G. Illiquid Investments. The Fund may invest in illiquid securities. An illiquid investment is any investment that may not reasonably be expected to be sold or disposed of in

current market conditions in seven calendar days or less without the conversion to cash significantly changing the market value of the investment. However, the Fund will not acquire any illiquid investment ties if, immediately after the acquisition, the Fund would have invested more than 15% of the value of the Fund's net assets in illiquid investments.

Illiquid securities will be priced at fair value as determined in good faith under procedures adopted by the Board. If, through the appreciation of illiquid securities or the depreciation of liquid securities, the Fund should be in a position where more than 15% of the value of its net assets are invested in illiquid securities, the Fund will take steps in accordance with the Trust's Liquidity Risk Management Program to protect liquidity.

H. Restricted Securities. The Fund may invest in restricted securities (securities the disposition of which is restricted under the federal securities laws), including securities that may only be resold pursuant to Rule 144A under the Securities Act of 1933 (the "1933 Act"). Restricted securities may be sold only in privately negotiated transactions or in a public offering with respect to which a registration statement is in effect under the 1933 Act. Where registration is required, the Fund may be obligated to pay all or part of the registration expenses and a considerable period may elapse between the time of the decision to sell and the time the Fund may be permitted to sell a security under an effective registration statement. If, during such a period, adverse market conditions were to develop, the Fund might obtain a less favorable price than that which prevailed when it decided to sell.

I. Stock Market Risk. The Fund may lose money due to fluctuations within the stock market which may be unrelated to individual issuers and could not have been predicted. The price of the securities which the Fund holds may change unpredictably and due to local, regional, international, or global events. These events may include economic downturns such as recessions or depressions; natural occurrences such as natural disasters, epidemics or pandemics; acts of violence such as terrorism or war; and political and social unrest. Due to the prominence of globalization and global trade, the securities held by the Fund may be affected by international and global events. In the case of a general market downturn, multiple asset classes, or the entire market, may be negatively affected for an extended and unknown amount of time. Although all securities are subject to these risk, different securities will be affected in different manners depending on the event.

J. Investment Company Securities. The Fund may invest in the securities of other investment companies to the extent that such an investment would be consistent with the limitations of the Investment Company Act of 1940, as amended ("1940 Act"), and the Fund's investment objectives. Other investment companies, including exchange-traded funds ("ETFs"), open-end mutual funds and closed-end mutual funds, are subject to investment advisory and other expenses, which will be indirectly paid by the Fund. As a result, to the extent the Fund invests in ETFs and other investment companies, the cost of investing in the Fund will be higher than the cost of investing directly in other investment companies and may be higher than other mutual funds that invest directly in stocks and bonds. Each ETF and other investment company is subject to its own specific risks, depending on the nature of the fund.

Mutual Fund Risk. Mutual funds are subject to investment advisory and other expenses, which will be indirectly paid by the Fund. As a result, your cost of investing will be higher than the cost of investing directly in a mutual fund and may be higher than other mutual

funds that invest directly in stocks and bonds. Mutual funds are also subject to management risk because the adviser to the underlying mutual fund may be unsuccessful in meeting the fund's investment objective and may temporarily pursue strategies which are inconsistent with the Fund's investment objective.

Closed-end Fund Risk. The value of the shares of closed-end funds may be lower than the value of the portfolio securities held by the closed-end fund. Closed-end funds may trade infrequently, with small volume, which may make it difficult for the Fund to buy and sell shares. Also, the market price of closed-end funds tends to rise more in response to buying demand and fall more in response to selling pressure than is the case with large capitalization equity securities.

ETFs Risk. ETFs are subject to investment advisory and other expenses, which will be indirectly paid by the Fund. As a result, your cost of investing in the Fund will be higher than the cost of investing directly in ETFs and may be higher than other mutual funds that invest directly in stocks and bonds. ETFs are listed on national stock exchanges and are traded like stocks listed on an exchange. ETF shares may trade at a discount to or a premium above NAV if there is a limited market in such shares. ETFs are also subject to brokerage and other trading costs, which could result in greater expenses to the Fund. Because the value of ETF shares depends on the demand in the market, the Adviser may not be able to liquidate the Fund's holdings at the most optimal time, adversely affecting performance. Additional risks of investing in ETFs are described below:

ETF Strategy Risk: Each ETF is subject to specific risks, depending on the nature of the ETF. These risks could include liquidity risk, sector risk, foreign and emerging market risk, as well as risks associated with real estate investments and commodities.

Net Asset Value and Market Price Risk: The market value of ETF shares may differ from their NAV. This difference in price may be due to the fact that the supply and demand in the market for ETF shares at any point in time is not always identical to the supply and demand in the market for the underlying basket of securities. Accordingly, there may be times when an ETF share trades at a premium or discount to its NAV.

Tracking Risk: ETFs in which the Fund invests will not be able to replicate exactly the performance of the indices they track because the total return generated by the securities will be reduced by transaction costs incurred in adjusting the actual balance of the securities. In addition, the ETFs in which the Fund invests will incur expenses not incurred by their applicable indices. Certain securities comprising the indices tracked by the ETFs may, from time to time, temporarily be unavailable, which may further impede the ETFs' ability to track their applicable indices.

Generally, under the 1940 Act, a fund may not acquire shares of another investment company (including ETFs) if, immediately after such acquisition, (i) such fund would hold more than 3% of the other investment company's total outstanding shares, (ii) such fund's investment in securities of the other investment company would be more than 5% of the value of the total assets of the fund, or (iii) more than 10% of such fund's total assets would be invested in

investment companies. The Fund may exceed these statutory limits when permitted by and in accordance with certain statutory exemptions within and rules adopted under Section 12(d)(1) of the 1940 Act, including Rule 12d1-4, and any available SEC exemptive orders permitting investments in excess of the statutory limits.

PORTFOLIO TURNOVER

Although the Fund generally will not invest for short-term trading purposes, portfolio securities may be sold without regard to the length of time they have been held when, in the opinion of the Adviser, investment considerations warrant such action. The Fund's portfolio turnover rate is a measure of the Fund's portfolio activity, and is calculated by dividing the lesser of purchases or sales of securities by the average value of the portfolio securities held during the period. A high rate of portfolio turnover (100% or more) generally leads to higher transaction costs and may result in a greater number of taxable transactions. During the fiscal years ended January 31, 2023 and January 31, 2024, the Fund's portfolio turnover rate was 0% and 0%, respectively, of the average value of its portfolio. In accordance with industry practice, derivative instruments and instruments with a maturity of one year or less at the time of acquisition are excluded from the calculation of the portfolio turnover rate, which leads to the 0% portfolio turnover rate reported above. If those instruments were included in the calculation, the Fund would have a high portfolio turnover rate.

INVESTMENT LIMITATIONS

Fundamental. The investment limitations described below have been adopted by the Trust with respect to the Fund and are fundamental ("Fundamental"), i.e., they may not be changed without the affirmative vote of a majority of the outstanding shares of the Fund. As used in the Prospectus and this SAI, the term "majority of the outstanding shares of the Fund" means the lesser of: (1) 67% or more of the outstanding shares of the Fund present at a meeting, if the holders of more than 50% of the outstanding shares of the Fund are present or represented at such meeting; or (2) more than 50% of the outstanding shares of the Fund.

1. Borrowing Money. The Fund will not borrow money, except from: (a) a bank, provided that immediately after such borrowing there is an asset coverage of 300% for all borrowings of the Fund; or (b) a bank or other persons for temporary purposes only, provided that such temporary borrowings are in an amount not exceeding 5% of the Fund's total assets at the time when the borrowing is made. This limitation does not preclude the Fund from entering into reverse repurchase transactions, provided that the Fund has an asset coverage of 300% for all borrowings and repurchase commitments of the Fund pursuant to reverse repurchase transactions.
2. Diversification. The Fund may not, with respect to 75% of its total assets, invest more than 5% of the value of its total assets in the securities of any one issuer or purchase more than 10% of the outstanding voting securities of any class of securities of any one issuer (except that securities of the U.S. government, its agencies, and instrumentalities are not subject to this limitation).
3. Senior Securities. The Fund will not issue senior securities. This limitation is not applicable to activities that may be deemed to involve the issuance or sale of a

senior security by the Fund, provided that the Fund's engagement in such activities is consistent with or permitted by the 1940 Act, the rules and regulations promulgated thereunder or interpretations of the Securities and Exchange Commission ("SEC") or its staff.

4. Underwriting. The Fund will not act as underwriter of securities issued by other persons. This limitation is not applicable to the extent that, in connection with the disposition of portfolio securities (including restricted securities), the Fund may be deemed an underwriter under certain federal securities laws.
5. Real Estate. The Fund will not purchase or sell real estate. This limitation is not applicable to investments in marketable securities that are secured by or represent interests in real estate. This limitation does not preclude the Fund from investing in mortgage-related securities or investing in companies engaged in the real estate business or that have a significant portion of their assets in real estate (including real estate investment trusts ("REITs")).
6. Commodities. The Fund will not purchase or sell commodities unless acquired as a result of ownership of securities or other investments. This limitation does not preclude the Fund from purchasing or selling options or futures contracts, from investing in securities or other instruments backed by commodities or from investing in companies that are engaged in a commodities business or have a significant portion of their assets in commodities.
7. Loans. The Fund will not make loans to other persons, except: (a) by loaning portfolio securities; (b) by engaging in repurchase agreements; or (c) by purchasing non-publicly offered debt securities. For purposes of this limitation, the term "loans" shall not include the purchase of a portion of an issue of publicly distributed bonds, debentures or other securities.
8. Concentration. The Fund will not invest more than 25% of its total assets in any one particular industry. This limitation is not applicable to investments in obligations issued or guaranteed by the U.S. government, its agencies and instrumentalities or repurchase agreements with respect thereto.

With respect to the percentages adopted by the Trust as maximum limitations on its investment policies and limitations, an excess above the fixed percentage will not be a violation of the policy or limitation unless the excess results immediately and directly from the acquisition of any security or the action taken. This paragraph does not apply to the borrowing policy set forth in paragraph 1 above.

Notwithstanding any of the foregoing limitations, any investment company, whether organized as a trust, association or corporation, or a personal holding company, may be merged or consolidated with or acquired by the Trust, provided that if such merger, consolidation or acquisition results in an investment in the securities of any issuer prohibited by said paragraphs, the Trust shall, within ninety days after the consummation of such merger, consolidation or acquisition, dispose of all of the securities of such issuer so acquired or such portion thereof as

shall bring the total investment therein within the limitations imposed by said paragraphs above as of the date of consummation.

INVESTMENT ADVISER

The Fund’s Adviser is Belmont Capital, LLC d/b/a Belmont Capital GroupTM, 1875 Century Park E., Suite 1780, Los Angeles, California 90067. The Adviser was formed in 2010 by Mr. Stephen Solaka and Mr. Daniel Beckwith who each own 50% of the Adviser and serve as portfolio managers to the Fund. The Adviser provides investment advice to individuals, corporations and institutions and, as of January 31, 2024 had assets under management of approximately \$615.8 million. The Fund is the first mutual fund managed by the Adviser.

Under the terms of the management agreement (the “Agreement”), the Adviser manages the Fund’s investments subject to oversight by the Board. As compensation for its management services, the Fund is obligated to pay the Adviser a fee computed and accrued daily and paid monthly at an annual rate of 1.75% of the average daily net assets of the Fund.

The Adviser has contractually agreed to waive or limit its fees and to assume other expenses of the Fund until May 31, 2025, so that Total Annual Fund Operating Expenses does not exceed 1.99%. This contractual arrangement may only be terminated by mutual consent of the Adviser and the Board, and it will automatically terminate upon the termination of the investment advisory agreement between the Fund and the Adviser. This operating expense limitation does not apply to: (i) interest, (ii) taxes, (iii) brokerage commissions, (iv) other expenditures which are capitalized in accordance with generally accepted accounting principles, (v) other extraordinary expenses not incurred in the ordinary course of the Fund's business, (vi) dividend expense on short sales, (vii) expenses incurred under a plan of distribution under Rule 12b-1, and (viii) expenses that the Fund has incurred but did not actually pay because of an expense offset arrangement, if applicable, in any fiscal year. The operating expense limitation also excludes any “Fees and Expenses of Acquired Funds,” which are the expenses indirectly incurred by the Fund as a result of investing in money market funds or other investment companies, including ETFs, that have their own expenses. Each waiver or reimbursement of an expense by the Adviser is subject to repayment by the Fund within the three years following the date the particular expense payment occurred provided that the Fund is able to make the repayment without exceeding the expense limitation in place at the time of the waiver or reimbursement and the expense limitation in place at the time of the repayment.

The following table describes the advisory fees earned by the Adviser, amounts waived and/or reimbursed and net amounts paid to the Adviser for the periods indicated.

<u>Fiscal Year Ended</u>	<u>Advisory Fees Accrued</u>	<u>Fee Waiver/Expense Reimbursement</u>	<u>Net Advisory Fees</u>
January 31, 2024	\$200,378	\$194,325	\$6,053
January 31, 2023	\$204,028	\$(170,269)	\$33,759
January 31, 2022	\$229,178	\$(153,403)	\$75,775

The Adviser retains the right to use the name “Belmont” or “Belmont Capital Group” in connection with another investment company or business enterprise with which the Adviser is or

may become associated. The Trust’s right to use the name “Belmont” or “Belmont Capital Group” automatically ceases 90 days after termination of the Agreement and may be withdrawn by the Adviser on 90 days’ written notice.

The Adviser may make payments to banks or other financial institutions that provide shareholder services and administer shareholder accounts. If a bank or other financial institution were prohibited from continuing to perform all or a part of such services, management of the Fund believes that there would be no material impact on the Fund or shareholders. Banks and other financial institutions may charge their customers fees for offering these services to the extent permitted by applicable regulatory authorities, and the overall return to those shareholders availing themselves of the bank services will be lower than to those shareholders who do not. The Fund may from time to time purchase securities issued by banks and other financial institutions that provide such services; however, in selecting investments for the Fund, no preference will be shown for such securities.

About the Portfolio Managers

Stephen Solaka and Daniel Beckwith are co-portfolio managers of the Fund (“Portfolio Managers”). As of January 31, 2024 the Portfolio Managers were responsible for managing the following types of accounts, in addition to the Fund:

Account Type	Number of Accounts by Account Type	Total Assets By Account Type	Number of Accounts by Type Subject to a Performance Fee	Total Assets By Account Type Subject to a Performance Fee
Registered Investment Companies	0	0	0	0
Pooled Investment Vehicles	0	0	0	0
Other Accounts	128	\$603.9 million	0	0

Compensation: Each of the Portfolio Managers are compensated through their equity ownership in the Adviser. They do not receive separate compensation for their services as Portfolio Managers. As equity members of the Adviser, the Portfolio Managers receive compensation in the form of distributions and profits from the Adviser.

Potential Conflicts of Interest: Potential conflicts of interest may arise because the Portfolio Managers use the same proprietary investment methodology for the Fund as they use for other clients. This means that the Portfolio Managers will make the investment strategies used to manage the Fund available to other clients. As a result, there may be circumstances under which the Fund and other clients of the Adviser may compete in purchasing available investments and, to the extent that the demand exceeds the supply, may result in driving the prices of such investments up, resulting in higher costs to the Fund. There also may be circumstances under which the Portfolio Managers purchase or sell various investments for other clients and do not purchase or sell the same investments for the Fund, or purchase or sell an investment for the Fund and do not include such investment in purchases or sales for other clients. This is because each

client’s investment policy guidelines and/or prevailing market conditions at the time of such purchases or sales are made may differ from those of the Fund. Each Portfolio Manager may also carry on investment activities for his own account(s) and/or the accounts of family members.

Ownership of Fund Shares: As of January 31, 2024, the Portfolio Managers’ beneficial ownership of shares of the Fund was in the following ranges:

Portfolio Manager	Dollar Range of Equity Securities in the Fund
Stephen Solaka	\$50,001 - \$100,000
Daniel Beckwith	None

TRUSTEES AND OFFICERS

The Board supervises the business activities of the Trust and is responsible for protecting the interests of shareholders. The Chairperson of the Board is Andrea N. Mullins, who is not an “interested person” of the Trust, as that term is defined under the 1940 Act (“Independent Trustee”). The Board has considered the overall leadership structure of the Trust and has established committees designed to facilitate the governance of the Trust by the Trustees generally and the Board’s role with respect to risk oversight specifically. The Trust’s committees are responsible for certain aspects of risk oversight relating to financial statements and compliance matters. The Board also has frequent interaction with the service providers and Chief Compliance Officer (“CCO”) of the Trust with respect to risk oversight matters. The CCO reports directly to the Board generally with respect to the CCO’s role in managing the compliance risks of the Trust. The CCO may also report directly to a particular committee of the Board depending on the subject matter. The Trust’s principal financial officer reports to the Audit Committee of the Board on all financial matters affecting the Trust, including risks associated with financial reporting. Through the committee structure, the Trustees also interact with other officers and service providers of the Trust to monitor risks related to the Trust’s operations. The Trust has determined that its leadership structure is appropriate based on the size of the Trust, the Board’s current responsibilities, each Trustee’s ability to participate in the oversight of the Trust and committee transparency.

The Trustees are experienced business persons who meet throughout the year to oversee the Trust’s activities, review contractual arrangements with companies that provide services to the Fund and review performance. Each Trustee serves as a trustee until termination of the Trust unless the Trustee dies, resigns, retires or is removed.

The following table provides information regarding each of the Trustees.

Name, Address*, Age, Position with Trust**, Term of Position with Trust	Principal Occupation During Past 5 Years	Other Directorships
INDEPENDENT TRUSTEES		
Ira P. Cohen, 65 Independent Trustee Since June 2010	Current: Independent financial services consultant (since February 2005); Executive Vice President of Asset Management Services, Recognos Financial (since August 2015).	Trustee and Audit Committee Chairman, Apollo Diversified Real Estate Fund (since March 2022); Trustee, Chairman and Nominating and Governance Committee Chairman, Angel Oak Funds Trust (since October 2014) (7 portfolios); Trustee, Chairman, and Nominating and Governance Committee Chairman, Angel Oak Strategic Credit Fund (since December 2017); Trustee, Chairman, and Nominating and Governance Committee Chairman, Angel Oak Financial Strategies Income Term Trust (since May 2019); Trustee, Chairman, and Nominating and Governance Committee Chairman, Angel Oak Credit Opportunities Term Trust (since January 2021); Trustee and Nominating and Governance Committee Chairman, U.S. Fixed Income Trust (since March 2019).
Andrea N. Mullins, 56 Independent Trustee Since December 2013 Chairperson Since March 2017	Current: Private investor; Independent Contractor, SWM Advisors (since April 2014).	Trustee, Angel Oak Funds Trust (since February 2019) (7 portfolios); Trustee, Angel Oak Strategic Credit Fund (since February 2019); Trustee, Angel Oak Financial Strategies Income Term Trust (since May 2019); Trustee, Angel Oak Credit Opportunities Term Trust (since January 2021); Trustee and Audit Committee Chair, NXG NextGen Infrastructure Income Fund (since November 2021); Trustee and Audit Committee Chair, NXG Cushing Midstream Energy Fund (since November 2021).
INTERESTED TRUSTEE		
Mark J. Seger***, 62 Trustee Since March 2017	Current: Vice Chairman and Co-Founder, Ultimus Fund Solutions, LLC and its subsidiaries (since 1999).	None.

* The address for each trustee is 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246.

** As of the date of this SAI, the Trust consists of 15 series.

***Mr. Seger is considered an “interested person” of the Trust because of his relationship with the Trust’s administrator, transfer agent, and distributors.

The Trust’s committees are responsible for certain aspects of risk oversight relating to financial statements and compliance and governance matters. The Board currently has established two standing committees: the Audit Committee and the Governance and Nominating Committee.

The Trust’s Audit Committee consists of the Independent Trustees. The Audit Committee is responsible for overseeing the Fund’s accounting and financial reporting policies and practices, its internal controls and, as appropriate, the internal controls of certain service providers; overseeing the quality and objectivity of the Fund’s financial statements and the independent audit

of the financial statements; and acting as a liaison between the Fund's independent auditors and the full Board. During the 2023 calendar year, the Audit Committee met five times.

The Governance and Nominating Committee consists of the Independent Trustees and oversees general Trust governance-related matters. The Governance and Nominating Committee's purposes, duties and powers are set forth in its written charter, which is included in Exhibit C – the charter also describes the process by which shareholders of the Trust may make nominations. During the 2023 calendar year, the Governance and Nominating Committee met four times.

Trustee Qualifications

Generally, no one factor was decisive in the original selection of an individual to join the Board. Among the factors the Board considered when concluding that an individual should serve on the Board were the following: (1) the individual's business and professional experience and accomplishments; (2) the individual's ability to work effectively with the other members of the Board; (3) how the individual's skills, experience and attributes would contribute to an appropriate mix of relevant skills and experience on the Board; and (4) how the individual would enhance the diversity of the Board. In respect of each Trustee, the individual's substantial professional accomplishments and prior experience, including, in some cases, in fields related to the operations of the Trust, were a significant factor in the determination that the individual should serve as a Trustee of the Trust. In addition to the information provided above, below is a summary of the specific experience, qualifications, attributes or skills of each Trustee and the reason why he or she was selected to serve as Trustee:

Ira P. Cohen – Mr. Cohen has over 43 years of experience in the financial services industry, including in an executive management role. He was selected to serve as Trustee of the Trust based primarily on his comprehensive understanding of the Trust's operations and investments.

Andrea N. Mullins – Ms. Mullins has over 30 years of experience in the mutual fund industry, including experience in management, accounting and financial reporting.

Mark J. Seger - Mr. Seger has over 36 years of experience in the financial services industry, including extensive experience in an executive management role with two different mutual fund servicing companies, including the Trust's administrator. Mr. Seger was selected to serve as Trustee of the Trust based primarily on his extensive knowledge of mutual fund operations, including the regulatory framework under which the Trust must operate.

The following table provides information regarding the Officers of the Trust:

Name, Address*, Age, Position with Trust**, Term of Position with Trust	Principal Occupation During Past 5 Years
Matthew J. Miller , 48 Principal Executive Officer and President Since March 2022 Vice President From December 2011 to March 2022	Current: Vice President, Relationship Management, Ultimus Fund Solutions, LLC (since December 2015).
N. Lynn Bowley , 65 Chief Compliance Officer Since April 2022	Current: Senior Vice President, Senior Compliance Officer, Northern Lights Compliance Services, LLC (since January 2007).
Carol J. Highsmith , 59 Vice President Since August 2008 Secretary Since March 2014	Current: Vice President, Ultimus Fund Solutions, LLC (since December 2015).
Zachary P. Richmond , 43 Principal Financial Officer and Treasurer Since September 2021	Current: Vice President, Financial Administration, Ultimus Fund Solutions, LLC (since February 2019).
Jared D. Lahman , 38 AML Officer since March 2023	Current: Assistant Vice President, Compliance Officer, Northern Lights Compliance Services, LLC (since September 2023). Previous: Senior Compliance Analyst, Northern Lights Compliance Services, LLC (January 2019 to September 2023).

* The address for each officer is 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246.

* As of the date of this SAI, the Trust consists of 15 series.

The table below shows for each Trustee, the amount of Fund equity securities beneficially owned by each Trustee, and the aggregate value of all investments in equity securities of the funds of the Trust, as of December 31, 2023 and stated as one of the following ranges: A = None; B = \$1-\$10,000; C = \$10,001-\$50,000; D = \$50,001-\$100,000; and E = over \$100,000.

Name of Trustee	Dollar Range of Equity Securities in the Fund	Aggregate Dollar Range of Equity Securities in all Registered Investment Companies Overseen by the Trustees in Family of Investment Companies
<u>Non-Interested Trustees</u>		
Andrea N. Mullins	A	A
Ira P. Cohen	A	A
<u>Interested Trustee</u>		
Mark J. Seger	A	A

Compensation. Set forth below are estimates of the annual compensation to be paid to the Trustees entitled to receive compensation by the Fund on an individual basis and by the Trust on an aggregate basis. Trustees' fees and expenses are Trust expenses and the Fund incurs its pro rata share of expenses based on the number of existing series in the Trust and the total assets of each series relative to the overall assets of the Trust. As a result, the amount paid by the Fund will increase or decrease as series are added or removed from the Trust.

Independent Trustees	Aggregate Compensation from the Fund	Pension or Retirement Benefits Accrued As Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Total Compensation from Trust*
Ira P. Cohen**	\$3,433	\$0	\$0	\$51,500
Andrea N. Mullins***	\$3,433	\$0	\$0	\$51,500

* As of the date of this SAI, the Trust consists of 15 series. Each series, including the Fund, pays a portion of the overall Independent Trustee compensation expenses, which is based on the total number of series in the Trust. Effective January 1, 2022, each Independent Trustee receives annual base compensation of \$3,300 per series. Each Independent Trustee also receives additional compensation for serving as the chairperson of one or more of the Trust's standing committees and for participating in special meetings of the Board.

** For the fiscal year ended January 31, 2024, Mr. Ira P. Cohen received \$3,479 from the Fund.

*** For the fiscal year ended January 31, 2024, Ms. Andrea N. Mullins received \$3,479 from the Fund.

CONTROL PERSONS AND PRINCIPAL HOLDERS OF SECURITIES

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates a presumption of control of a fund, under Section 2(a) (9) of the 1940 Act. As a controlling shareholder, each of these persons could control the outcome of any proposal submitted to the shareholders for approval, including changes to the Fund's fundamental policies or the terms of the management agreement with the Adviser. To the best knowledge of the Trust, the names and addresses of the record and beneficial holders of 5% or more of the outstanding shares of the Fund's voting securities and the percentage of the outstanding shares held by such holders, each as of April 30, 2024, are set forth below. Unless otherwise indicated below, the Trust has no knowledge as to whether all or any portion of the shares owned of record are also owned beneficially. As of April 30, 2024, the Trustees and officers of the Trust own beneficially 0% of the outstanding shares of the Fund.

Name and Address	% Ownership	Type of Ownership
National Financial Services, LLC 499 Washington Boulevard Jersey City, NJ 07310	92.76%	Record
Charles Schwab & Co. 211 Main Street San Francisco, CA 94105	7.23%	Record

It is not known whether National Financial Services, LLC ("NFS") or any of the underlying beneficial owners owned or controlled more than 25% of the voting securities of the Fund. As a result, NFS may be deemed to control the Fund.

ANTI-MONEY LAUNDERING COMPLIANCE PROGRAM

Customer identification and verification is part of the Fund's overall obligation to prevent money laundering under federal law. The Trust has, on behalf of the Fund, adopted an anti-money

laundering compliance program designed to prevent the Fund from being used for money laundering or financing of terrorist activities (the “AML Compliance Program”). The Trust has delegated the responsibility to implement the AML Compliance Program to the Fund’s transfer agent, Ultimus Fund Solutions, LLC, subject to oversight by the Trust’s AML Officer and by the Trust’s CCO and, ultimately, by the Board.

When you open an account with the Fund, the Fund’s transfer agent will request that you provide your name, physical address, date of birth, and Social Security number or tax identification number. You may also be asked for other information that, in the transfer agent’s discretion, will allow the Fund to verify your identity. Entities are also required to provide additional documentation. This information will be verified to ensure the identity of all persons opening an account with the Fund. The Fund reserves the right to (i) refuse, cancel or rescind any purchase or exchange order, (ii) freeze any account and/or suspend account activities, or (iii) involuntarily redeem your account in cases of threatening conduct or suspected fraudulent or illegal activity. These actions will be taken when, in the sole discretion of the Fund’s transfer agent, they are deemed to be in the best interest of the Fund, or in cases where the Fund is requested or compelled to do so by governmental or law enforcement authority.

PORTFOLIO TRANSACTIONS AND BROKERAGE

Subject to policies established by the Board, the Adviser is responsible for the Fund’s portfolio decisions and the placing of the Fund’s portfolio transactions. In placing portfolio transactions, the Adviser seeks the best qualitative execution for the Fund, taking into account such factors as price (including the applicable brokerage commission or dealer spread), the execution capability, financial responsibility and responsiveness of the broker or dealer and the brokerage and research services provided by the broker or dealer. The Adviser generally seeks favorable prices and commission rates that are reasonable in relation to the benefits received.

The Adviser is specifically authorized to select brokers or dealers who also provide brokerage and research services to the Fund and/or the other accounts over which the Adviser exercises investment discretion and to pay such brokers or dealers a commission in excess of the commission another broker or dealer would charge if the Adviser determines in good faith that the commission is reasonable in relation to the value of the brokerage and research services provided. The determination may be viewed in terms of a particular transaction or the Adviser’s overall responsibilities with respect to the Fund and to other accounts over which it exercises investment discretion.

Research services include supplemental research, securities and economic analyses, statistical services and information with respect to the availability of securities or purchasers or sellers of securities and analyses of reports concerning performance of accounts. The research services and other information furnished by brokers through whom the Fund effects securities transactions may also be used by the Adviser in servicing all of its accounts. Similarly, research and information provided by brokers or dealers serving other clients may be useful to the Adviser in connection with its services to the Fund. Although research services and other information are useful to the Fund and the Adviser, it is not possible to place a dollar value on the research and other information received. It is the opinion of the Board and the Adviser that the review and study of the research and other information will not reduce the overall cost to the Adviser of performing its duties to the Fund under the Agreement. During the fiscal year ended January 31,

2024, the Fund did not direct any Fund brokerage transactions to brokers based on research services provided to the Adviser.

Over-the-counter transactions will be placed either directly with principal market makers or with broker-dealers, if the same or a better price, including commissions and executions, is available. Fixed income securities are normally purchased directly from the issuer, an underwriter or a market maker. Purchases include a concession paid by the issuer to the underwriter and the purchase price paid to a market maker may include the spread between the bid and asked prices. When the broker acts as agent, a commission will be charged on the transaction; when the broker acts as principal, the markup is included in the bond price.

When the Fund and another of the Adviser’s clients seek to purchase or sell the same security at or about the same time, the Adviser may execute the transaction on a combined (“blocked”) basis. Blocked transactions can produce better execution for the Fund because of the increased volume of the transaction. If the entire blocked order is not filled, the Fund may not be able to acquire as large a position in such security as it desires, or it may have to pay a higher price for the security. Similarly, the Fund may not be able to obtain as large an execution of an order to sell, or as high a price for any particular portfolio security, if the other client desires to sell the same portfolio security at the same time. In the event that the entire blocked order is not filled, the purchase or sale will normally be allocated on a pro rata basis.

The following table sets forth the brokerage commissions paid by the Fund on its portfolio brokerage transactions during the periods shown:

Fiscal Year Ended	Brokerage Commissions
January 31, 2024	\$7,790
January 31, 2023	\$13,110
January 31, 2022	\$16,746

CODES OF ETHICS

The Trust, the Fund’s distributor, and the Adviser have each adopted a Code of Ethics (each a “Code” and collectively, the “Codes”) pursuant to Rule 17j-1 of the 1940 Act, and the Adviser’s Code also conforms to Rule 204A-1 under the Investment Advisers Act of 1940. The personnel subject to the Codes are permitted to invest in securities, including securities that may be purchased or held by the Fund. You may obtain a copy of the Codes from the Fund, free of charge, by calling the Fund at (800) 789-1087. You may also obtain copies of the Trust’s Code from documents filed with the SEC and available on the SEC’s web site at www.sec.gov.

DISCLOSURE OF PORTFOLIO HOLDINGS

The Fund is required to include a schedule of portfolio holdings in its annual and semi-annual reports to shareholders, which is sent to shareholders within 60 days of the end of the second and fourth fiscal quarters and which is filed with the SEC on Form N-CSR. The Fund files its complete schedules of portfolio holdings with the SEC for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. The Fund must provide a copy of the complete schedule of portfolio holdings as filed with the SEC to any shareholder of the Fund, upon request,

free of charge. This policy is applied uniformly to all shareholders of the Fund without regard to the type of requesting shareholder (i.e., regardless of whether the shareholder is an individual or institutional investor).

The Fund releases portfolio holdings to third party servicing agents on a daily basis in order for those parties to perform their duties on behalf of the Fund. These third party servicing agents include the Adviser, distributor, transfer agent, fund accounting agent, administrator and custodian. The Fund also may disclose portfolio holdings, as needed, to auditors, legal counsel, proxy voting services (if applicable), printers, pricing services, parties to merger and reorganization agreements and their agents, and prospective or newly hired investment advisers or sub-advisers. The lag between the date of the information and the date on which the information is disclosed will vary based on the identity of the party to whom the information is disclosed. For instance, the information may be provided to auditors within days of the end of an annual period, while the information may be given to legal counsel or prospective advisers at any time. This information is disclosed to all such third parties under conditions of confidentiality. “Conditions of confidentiality” include (i) confidentiality clauses in written agreements, (ii) confidentiality implied by the nature of the relationship (e.g., attorney-client relationship), (iii) confidentiality required by fiduciary or regulatory principles (e.g., custodial relationships) or (iv) understandings or expectations between the parties that the information will be kept confidential.

Additionally, the Fund has ongoing arrangements to release portfolio holdings to Morningstar, Inc., Lipper, Inc., Bloomberg, Standard & Poor’s, Refinitiv and Vickers-Stock (“Rating Agencies”) in order for those organizations to assign a rating or ranking to the Fund. In these instances portfolio holdings will be supplied within approximately 15 days after the end of the month. The Rating Agencies may make the Fund’s top portfolio holdings available on their websites and may make the Fund’s complete portfolio holdings available to their subscribers for a fee. Neither the Fund, the Adviser nor any of their affiliates receive any portion of this fee. Information released to Rating Agencies is released under conditions of confidentiality and it is subject to prohibitions on trading based on the information. The Fund also may post its complete portfolio holdings to its website, if applicable, within approximately 15 days after the end of the month. The information will remain posted on the website until replaced by the information for the succeeding month. If the Fund does not have a website or the website is for some reason inoperable, the information will be supplied no more frequently than quarterly and on a delayed basis.

From time to time, employees of the Adviser also may provide oral or written information (portfolio commentary) about the Fund, including, but not limited to, how the Fund’s investments are divided among various sectors, industries, countries, investment styles and capitalization sizes, and among stocks, bonds, currencies and cash, security types, bond maturities, bond coupons and bond credit quality ratings. This portfolio commentary may also include information on how these various weightings and factors contributed to Fund performance. Employees of the Adviser may also provide oral or written information (statistical information) about various financial characteristics of the Fund or its underlying portfolio securities including, but not limited to, alpha, beta, R-squared, coefficient of determination, duration, maturity, information ratio, Sharpe ratio, earnings growth, payout ratio, price/book value, projected earnings growth, return on equity, standard deviation, tracking error, weighted average quality, market capitalization, percent debt to equity, price to cash flow, dividend yield or growth, default rate, portfolio turnover, and risk and style characteristics. This portfolio commentary and statistical information about the Fund may be

based on the Fund's portfolio as of the most recent quarter-end or the end of some other interim period, such as month-end. The portfolio commentary and statistical information may be provided to various persons, including members of the press, brokers and other financial intermediaries that sell shares of the Fund, shareholders in the Fund, persons considering investing in the Fund or representatives of such shareholders or potential shareholders, such as fiduciaries of a 401(k) plan or a trust and their adviser. The nature and content of the information provided to each of these persons may differ.

The Adviser provides services for individuals, other than the Trust, including institutional investors and high net worth persons. In many cases, these other service offerings are managed in a similar fashion to the Fund and thus have similar portfolio holdings. The owners of separate accounts that are managed by the Adviser may have access to the portfolio holdings of their separate accounts at different times than the Fund discloses its portfolio holdings.

Except as described above, the Fund is prohibited from entering into any arrangements with any person to make available information about the Fund's portfolio holdings without the prior authorization of the CCO and the specific approval of the Board. The Adviser must submit any proposed arrangement pursuant to which the Adviser intends to disclose the Fund's portfolio holdings to the Board, which will review such arrangement to determine whether the arrangement is in the best interests of Fund shareholders. Additionally, the Adviser, and any affiliated persons of the Adviser, are prohibited from receiving compensation or other consideration, for themselves or on behalf of the Fund, as a result of disclosing the Fund's portfolio holdings. Finally, the Fund will not disclose portfolio holdings as described above to third parties that the Fund knows will use the information for personal securities transactions.

The Trust maintains written policies and procedures regarding the disclosure of its portfolio holdings to ensure that such disclosure is for a legitimate business purpose and is in the best interests of the Fund's shareholders. The Board reviews these policies and procedures on an annual basis. Compliance will be periodically assessed by the Board in connection with a report from the Trust's CCO. There may be instances where the interests of the Trust's shareholders respecting the disclosure of information about portfolio holdings may conflict or appear to conflict with the interests of the Adviser, any principal underwriter for the Trust or an affiliated person of the Trust (including such affiliated person's investment adviser or principal underwriter). In such situations, the conflict must be disclosed to the Board.

PROXY VOTING POLICY

The Trust and the Adviser each have adopted proxy voting policies and procedures reasonably designed to ensure that proxies are voted in shareholders' best interests. As a brief summary, the Trust's policy delegates responsibility regarding proxy voting to the Adviser, subject to the Adviser's proxy voting policy and the supervision of the Board. The Adviser votes the Fund's proxies in accordance with its proxy voting policy, subject to the provisions of the Trust's policy regarding conflicts of interests. The Fund's Proxy Voting Policy and Procedure is attached as Exhibit A. The Adviser's Proxy Voting Policy and Procedure is attached as Exhibit B.

The Trust's policy provides that, if a conflict of interest between the Adviser or its affiliates and the Fund arises with respect to any proxy, the Adviser must fully disclose the conflict to the Board and vote the proxy in accordance with the Board's instructions. The Board shall make the

proxy voting decision that in its judgment, after reviewing the recommendation of the Adviser, is most consistent with the Adviser's proxy voting policies and in the best interests of Fund shareholders.

You may also obtain a copy of the Trust's and the Adviser's proxy voting policy by calling Shareholder Services at (800) 789-1087 to request a copy, or by writing to Ultimus Fund Solutions, LLC, the Fund's transfer agent, at 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246. A copy of the policies will be mailed to you within three days of receipt of your request. You also may obtain a copy from Fund documents filed with the SEC, which are available on the SEC's web site at www.sec.gov. A copy of the votes cast by the Fund with respect to portfolio securities for each year ended June 30th will be filed by the Fund with the SEC on Form N-PX. The Fund's proxy voting record will be available to shareholders free of charge upon request by calling or writing the Fund as described above or from the SEC's web site.

DETERMINATION OF NET ASSET VALUE

The NAV of the shares of the Fund is determined as of the close of trading (normally 4:00 p.m. Eastern time) on each day the Trust, its custodian, and transfer agent are open for business and on any other day on which there is sufficient trading in the Fund's securities to materially affect the NAV. The Trust is open for business on every day on which the New York Stock Exchange ("NYSE") is open for trading. The NYSE is closed on Saturdays, Sundays and the following holidays: New Year's Day, Martin Luther King, Jr. Day, President's Day, Good Friday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Thanksgiving and Christmas. For a description of the methods used to determine the NAV (share price), see "Determination of Net Asset Value" in the Prospectus.

Equity securities generally are valued by using market quotations furnished by a pricing service. Securities that are traded on any stock exchange are generally valued by the pricing service at the last quoted sale price. Lacking a last sale price, an exchange-traded security is generally valued by the pricing service at its last bid price. Securities traded in the NASDAQ over-the-counter market are generally valued by the pricing service at the NASDAQ Official Closing Price. The Board annually approves the pricing services used by the fund accounting agent.

Securities that do not have a readily available current market value are valued in good faith by the Adviser as "valuation designee" under the oversight of the Board. The Adviser has adopted policies and procedures for valuing securities and other assets in circumstances where market quotes are not readily available. In the event that market quotes are not readily available, and the security or asset cannot be valued pursuant to one of the valuation methods, the value of the security or asset will be determined in good faith by the Adviser. On a quarterly basis, the Adviser's fair valuation determinations will be reviewed by the Board. The Adviser's policy is intended to result in a calculation of the Fund's NAV that fairly reflects security values as of the time of pricing. However, fair values determined pursuant to the Adviser's procedures may not accurately reflect the price that the Fund could obtain for a security if it were to dispose of that security as of the time of pricing.

Market quotes are considered not readily available in circumstances where there is an absence of current or reliable market-based data (e.g., trade information, bid/asked information,

broker quotes), including where events occur after the close of the relevant market, but prior to the close of the NYSE, that materially affect the values of the Fund's securities or assets. In addition, market quotes are considered not readily available when, due to extraordinary circumstances, an exchange or market on which a security trades does not open for trading for the entire day and no other market prices are available. The Adviser as valuation designee will monitor for significant events that may materially affect the values of the Fund's securities or assets and for determining whether the value of the applicable securities or assets should be re-evaluated in light of such significant events.

The Fund's NAV per share is computed by dividing the value of the securities held by the Fund plus any cash or other assets (including interest and dividends accrued but not yet received) minus all liabilities (including accrued expenses) by the total number of shares in the Fund outstanding at such time, as shown below:

$$\frac{\text{Net Assets}}{\text{Shares Outstanding}} = \text{NAV Per Share}$$

REDEMPTION IN-KIND

The Fund does not intend to redeem shares in any form except cash. However, if the redemption amount is over the lesser of \$250,000 or 1% of the Fund's net asset value, pursuant to an election under Rule 18f-1 under the 1940 Act by the Trust on behalf of the Fund, the Fund has the right to redeem your shares by giving you the amount that exceeds the lesser of \$250,000 or 1% of the Fund's net asset value in securities instead of cash. In the event that an in-kind distribution is made, a shareholder may incur additional expenses such as the payment of brokerage commissions on the sale or other disposition of the securities received from the Fund.

STATUS AND TAXATION OF THE FUND

The following discussion is a summary of certain U.S. federal income tax considerations affecting the Fund and its shareholders. The discussion reflects applicable federal income tax laws of the U.S. as of the date of this SAI. These tax laws may be changed or subject to new interpretations by the courts or the Internal Revenue Service (the "IRS"), possibly with retroactive effect. No attempt is made to present a detailed explanation of all U.S. income, estate or gift tax, or foreign, state or local tax concerns affecting the Fund and its shareholders (including shareholders owning large positions in the Fund). The discussion set forth herein does not constitute tax advice. Investors are urged to consult their own tax advisers to determine the tax consequences to them of investing in the Fund.

In addition, no attempt is made to address tax concerns applicable to an investor with a special tax status such as a financial institution, REIT, insurance company, regulated investment company ("RIC"), individual retirement account, other tax-exempt entity, person holding Fund shares as part of a hedge, straddle or conversion transaction, dealer in securities or Non-U.S. Shareholder, except as specifically addressed below. Furthermore, this discussion does not reflect possible application of the alternative minimum tax to noncorporate shareholders. Unless otherwise noted, this discussion assumes shares of the Fund are held by U.S. shareholders and that such shares are held as capital assets.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds the Fund's common stock, the U.S. federal income tax treatment of a partner in such partnership generally will depend upon the status of the partner and the activities of such partnership. A partner of a partnership holding the Fund's common stock should consult its own tax advisor regarding the U.S. federal income tax consequences to the partner of the acquisition, ownership and disposition of the Fund's common stock by the partnership.

A "U.S. shareholder" is a beneficial owner of shares of the Fund that is for U.S. federal income tax purposes:

- a citizen or individual resident of the United States (including certain former citizens and former long-term residents);
- a corporation or other entity treated as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States or any state thereof or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust with respect to which a court within the United States is able to exercise primary supervision over its administration and one or more U.S. shareholders have the authority to control all of its substantial decisions or the trust has made a valid election in effect under applicable Treasury regulations to be treated as a U.S. person.

A "Non-U.S. shareholder" is a beneficial owner of shares of the Fund that is an individual, corporation, trust or estate and is not a U.S. shareholder. If a partnership (including any entity treated as a partnership for U.S. federal income tax purposes) holds shares of the Fund, the tax treatment of a partner in the partnership generally depends upon the status of the partner and the activities of the partnership. A prospective shareholder who is a partner of a partnership holding Fund shares should consult its tax advisors with respect to the purchase, ownership and disposition of its Fund shares.

Taxation as a RIC

The Fund intends to qualify each year for treatment as a RIC under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"). There can be no assurance that it actually will so qualify. The Fund will qualify as a RIC if, among other things, it meets the source-of-income and the asset-diversification requirements. With respect to the source-of-income requirement, the Fund must derive in each taxable year at least 90% of its gross income (including tax-exempt interest) from (i) dividends, interest, payments with respect to certain securities loans, and gains from the sale or other disposition of stock, securities or foreign currencies, or other income (including but not limited to gains from options, futures and forward contracts) derived with respect to its business of investing in such shares, securities or currencies, and (ii) net income derived from an interest in a "qualified publicly traded partnership." A "qualified publicly traded partnership" ("QPTP") is generally defined as a publicly traded

partnership under Internal Revenue Code section 7704. However, for these purposes, a QPTP does not include a publicly traded partnership if 90% or more of its income is described in (i) above. Income derived from a partnership (other than a qualified publicly traded partnership) or trust is qualifying income to the extent such income is attributable to items of income of the partnership or trust which would be qualifying income if realized by the Fund in the same manner as realized by the partnership or trust.

If a RIC fails this 90% income test, as long as such failure is due to reasonable cause and not willful neglect, such RIC is required to disclose the failure to the IRS and pay a tax equal to the excess of the gross income which is not derived from the sources described in (i) and (ii) above over 1/9 of the gross income that is described above.

With respect to the asset-diversification requirement, the Fund must diversify its holdings so that, at the end of each quarter of its taxable year (i) at least 50% of the value of the Fund's total assets is represented by cash and cash items, U.S. government securities, the securities of other RICs and other securities, if such other securities of any one issuer do not represent more than 5% of the value of the Fund's total assets or more than 10% of the outstanding voting securities of such issuer, and (ii) not more than 25% of the value of the Fund's total assets is invested in the securities of (other than U.S. government securities or the securities of other RICs) (a) one issuer, (b) two or more issuers that are controlled by the Fund and that are engaged in the same, similar or related trades or businesses, or (c) one or more qualified publicly traded partnerships.

If a RIC fails this asset-diversification test, such RIC, in addition to other cure provisions, has a 6-month period to correct any failure without incurring a penalty if such failure is "de minimis."

However, if a RIC does not satisfy the "de minimis" cure provisions, it can still cure a failure if: (a) the RIC files with the Treasury Department a description of each asset that causes the RIC to fail the diversification tests; (b) the failure is due to reasonable cause and not willful neglect; and (c) the failure is cured within six months (or such other period specified by the Treasury). In such cases, a tax is imposed on the RIC equal to the greater of: (a) \$50,000 or (b) an amount determined by multiplying the corporate tax rate by the amount of net income generated during the period of diversification test failure by the assets that caused the RIC to fail the diversification test.

If the Fund satisfies the income and asset-diversification tests above and distributes to its shareholders, for each taxable year, at least 90% of the sum of (i) its "investment company taxable income" as that term is defined in the Internal Revenue Code (which includes, among other things, dividends, taxable interest, the excess of any net short-term capital gains over net long-term capital losses and certain net foreign exchange gains as reduced by certain deductible expenses) without regard to the deduction for dividends paid, and (ii) the excess of its gross tax-exempt interest, if any, over certain deductions attributable to such interest that are otherwise disallowed, then the Fund will be relieved of U.S. federal income tax on any income of the Fund, including long-term capital gains, distributed to shareholders. However, any ordinary income or capital gain retained by the Fund will be subject to U.S. federal income tax at the corporate income tax rate. The Fund intends to distribute at least annually substantially all of its investment company taxable income, net tax-exempt interest, and net capital gain.

The Fund will generally be subject to a nondeductible 4% federal excise tax on the portion of its undistributed ordinary income with respect to each calendar year and undistributed capital gains if it fails to meet certain distribution requirements with respect to the one-year period ending on October 31 in that calendar year. In order to avoid the 4% federal excise tax, the required minimum distribution is generally equal to the sum of (i) 98% of the Fund's ordinary income (computed on a calendar year basis), (ii) 98.2% of the Fund's capital gain net income (generally computed for the one-year period ending on October 31) and (iii) any prior year undistributed income realized, on which the Fund paid no federal income tax in preceding years. The Fund generally intends to make distributions in a timely manner in an amount at least equal to the required minimum distribution and therefore, under normal market conditions, does not expect to be subject to this excise tax.

To the extent that the Fund has capital loss carryforwards from prior tax years, those carryforwards will reduce the Fund's current net capital gains and thus reduce the amount of the Fund's distribution of capital gain dividends. Capital loss carryforwards are reduced to the extent they offset current-year net realized capital gains, whether the Fund retains or distributes such gains. A RIC is permitted to carry forward net capital losses indefinitely and may allow losses to retain their original character (as short or as long-term). These capital loss carryforwards may be utilized in future years to offset net realized capital gains of the Fund, if any, prior to distributing such gains to shareholders.

The Fund may be required to recognize taxable income in circumstances in which it does not receive cash. For example, if the Fund holds debt obligations that are treated under applicable tax rules as having original issue discount (such as debt instruments with payment in kind interest or, in certain cases, with increasing interest rates or that are issued with warrants), the Fund must include in income each year a portion of the original issue discount that accrues over the life of the obligation regardless of whether cash representing such income is received by the Fund in the same taxable year. Because any original issue discount accrued will be included in the Fund's "investment company taxable income" (discussed below) for the year of accrual, the Fund may be required to make a distribution to its shareholders to satisfy the distribution requirement, even though it will not have received an amount of cash that corresponds with the income earned.

Gain or loss realized by the Fund from the sale or exchange of warrants acquired by the Fund as well as any loss attributable to the lapse of such warrants generally will be treated as capital gain or loss. Such gain or loss generally will be long-term or short-term, depending on how long the Fund held a particular warrant. Upon the exercise of a warrant acquired by the Fund, the Fund's tax basis in the stock purchased under the warrant will equal the sum of the amount paid for the warrant plus the strike price paid on the exercise of the warrant. Except as set forth in "Failure to Qualify as a RIC," the remainder of this discussion assumes that the Fund will qualify as a RIC for each taxable year.

Failure to Qualify as a RIC

If the Fund is unable to satisfy the 90% distribution requirement or otherwise fails to qualify as a RIC in any year, it will be subject to corporate level income tax on all of its income and gain, regardless of whether or not such income was distributed. Distributions to the Fund's shareholders of such income and gain will not be deductible by the Fund in computing its taxable income. In such event, the Fund's distributions, to the extent derived from the Fund's current or

accumulated earnings and profits, would constitute ordinary dividends, which would generally be eligible for the dividends-received deduction available to corporate shareholders, and non-corporate shareholders would generally be able to treat such distributions as “qualified dividend income” eligible for reduced rates of U.S. federal income, provided in each case that certain holding period and other requirements are satisfied.

Distributions in excess of the Fund’s current and accumulated earnings and profits would be treated first as a return of capital to the extent of the shareholders’ tax basis in their Fund shares, and any remaining distributions would be treated as a capital gain. To qualify as a RIC in a subsequent taxable year, the Fund would be required to satisfy the source-of-income, the asset diversification, and the annual distribution requirements for that year and dispose of any earnings and profits from any year in which the Fund failed to qualify for tax treatment as a RIC. Subject to a limited exception applicable to RICs that qualified as such under the Internal Revenue Code for at least one year prior to disqualification and that re-qualify as a RIC no later than the second year following the non-qualifying year, the Fund would be subject to tax on any unrealized built-in gains in the assets held by it during the period in which the Fund failed to qualify for tax treatment as a RIC that are recognized within the subsequent 10 years, unless the Fund made a special election to pay corporate-level tax on such built-in gain at the time of its re-qualification as a RIC.

Taxation of U.S. Shareholders

Distributions paid to U.S. shareholders by the Fund from its investment company taxable income (which is, generally, the Fund’s ordinary income plus net realized short-term capital gains in excess of net realized long-term capital losses) are generally taxable to U.S. shareholders as ordinary income to the extent of the Fund’s earnings and profits, whether paid in cash or reinvested in additional shares. Such distributions (if designated by the Fund) may qualify (i) for the dividends received deduction in the case of corporate shareholders under Section 243 of the Internal Revenue Code to the extent that the Fund’s income consists of dividend income from U.S. corporations, excluding distributions from tax-exempt organizations, exempt farmers’ cooperatives or REITs or (ii) in the case of individual shareholders, as qualified dividend income eligible to be taxed at reduced rates applicable to long-term capital gains (e.g., 0%, 15% or 20% depending on the individual’s taxable income) to the extent that the Fund receives qualified dividend income, and provided in each case certain holding period and other requirements are met.

Qualified dividend income is, in general, dividend income from taxable domestic corporations and qualified foreign corporations (e.g., generally, foreign corporations incorporated in a possession of the United States or in certain countries with a qualified comprehensive income tax treaty with the United States, or the stock with respect to which such dividend is paid is readily tradable on an established securities market in the United States). A qualified foreign corporation generally excludes any foreign corporation, which for the taxable year of the corporation in which the dividend was paid, or the preceding taxable year, is a passive foreign investment company.

Distributions made to a U.S. shareholder from an excess of net long-term capital gains over net short-term capital losses (“capital gain dividends”), including capital gain dividends credited to such shareholder but retained by the Fund, are taxable to such shareholder as long-term capital gain if they have been properly designated by the Fund, regardless of the length of time such shareholder owned the shares of the Fund. Long-term capital gain rates applicable to individuals

are 0%, 15%, or 20% depending on the nature of the capital gain and the individual's taxable income.

Distributions in excess of the Fund's earnings and profits will be treated by the U.S. shareholder, first, as a tax-free return of capital, which is applied against and will reduce the adjusted tax basis of the U.S. shareholder's shares and, after such adjusted tax basis is reduced to zero, will constitute capital gain to the U.S. shareholder (assuming the shares are held as a capital asset).

Generally, not later than sixty days after the close of its taxable year, the Fund will provide the shareholders with a written notice designating the amount of any qualified dividend income or capital gain dividends and other distributions.

Under the 2017 Tax Cuts and Jobs Act, "qualified REIT dividends" (i.e., ordinary REIT dividends other than capital gain dividends and portions of REIT dividends designated as qualified dividend income) are treated as eligible for a 20% deduction by noncorporate taxpayers. A Fund may pass through the special character of "qualified REIT dividends" to a shareholder, provided both the Fund and a shareholder meet certain holding period requirements with respect to their shares. The amount of a RIC's dividends eligible for the 20% deduction for a taxable year is limited to the excess of the RIC's qualified REIT dividends for the taxable year over allocable expenses. A noncorporate shareholder receiving such dividends would treat them as eligible for the 20% deduction, provided the shareholder meets certain holding period requirements for its shares in the RIC (i.e., generally, RIC shares must be held by the shareholder for more than 45 days during the 91-day period beginning on the date that is 45 days before the date on which the shares become ex-dividend with respect to such dividend).

For purposes of determining (i) whether the annual distribution requirement is satisfied for any year and (ii) the amount of capital gain dividends paid for that year, the Fund may, under certain circumstances, elect to treat a dividend that is paid during the following taxable year as if it had been paid during the taxable year in question. If the Fund makes such an election, the U.S. shareholder will still be treated as receiving the dividend in the taxable year in which the distribution is made. However, any dividend declared by the Fund in October, November or December of any calendar year, payable to shareholders of record on a specified date in such a month and actually paid during January of the following year, will be treated as if it had been received by the U.S. shareholders on December 31 of the year in which the dividend was declared.

If more than 50% of the value of the Fund's assets at the close of the taxable year consist of stock or securities in foreign corporations (including certain foreign ETFs or foreign index mutual funds) and certain other requirements are met, the Fund may elect to pass-through to its shareholders the amount of foreign income tax paid by the Fund instead of claiming it on its tax return. If such an election is made, each shareholder will include in gross income his proportional share of the foreign taxes paid by the Fund. Investors may either deduct their pro-rata amount of such taxes paid in computing their taxable income or use it as a foreign tax credit against federal income tax. If the Fund makes the election, it will furnish the shareholders with a written notice after the close of its taxable year.

The Fund intends to distribute all realized capital gains, if any, at least annually. If, however, the Fund were to retain any net capital gain, the Fund may designate the retained amount

as undistributed capital gains in a notice to shareholders who, if subject to U.S. federal income tax on long-term capital gains, (i) will be required to include in income as long-term capital gain, their proportionate shares of such undistributed amount, and (ii) will be entitled to credit their proportionate shares of the federal income tax paid by the Fund on the undistributed amount against their U.S. federal income tax liabilities, if any, and to claim refunds to the extent the credit exceeds such liabilities. If such an event occurs, the tax basis of shares owned by a shareholder of the Fund will, for U.S. federal income tax purposes, generally be increased by the difference between the amount of undistributed net capital gain included in the shareholder's gross income and the tax deemed paid by the shareholders.

Sales and other dispositions of the shares of the Fund generally are taxable events. U.S. shareholders should consult their own tax adviser with reference to their individual circumstances to determine whether any particular transaction in the shares of the Fund is properly treated as a sale or exchange for federal income tax purposes, as the following discussion assumes, and the tax treatment of any gains or losses recognized in such transactions. The sale or other disposition of shares of the Fund will generally result in capital gain or loss to the shareholder equal to the difference between the amount realized and his adjusted tax basis in the shares sold or exchanged, and will be long-term capital gain or loss if the shares have been held for more than one year at the time of sale. Any loss upon the sale or exchange of shares held for six months or less will be treated as long-term capital loss to the extent of any capital gain dividends received (including amounts credited as an undistributed capital gain dividend) by such shareholder with respect to such shares. A loss realized on a sale or exchange of shares of the Fund generally will be disallowed if other substantially identical shares are acquired within a 61-day period beginning 30 days before and ending 30 days after the date that the shares are disposed. In such case, the basis of the shares acquired will be adjusted to reflect the disallowed loss. Present law taxes both long-term and short-term capital gain of corporations at the rates applicable to ordinary income of corporations. For non-corporate taxpayers, short-term capital gain will currently be taxed at the rate applicable to ordinary income, while long-term capital gain generally will be taxed at a maximum rate of 20%. Capital losses are subject to certain limitations.

The Fund has chosen average cost as its standing (default) tax lot identification method for all shareholders. A tax lot identification method is the way the Fund will determine which specific shares are deemed to be sold when there are multiple purchases on different dates at differing net asset values, and the entire position is not sold at one time. The Fund's standing tax lot identification method is the method covered shares will be reported on your Consolidated Form 1099 if you do not select a specific tax lot identification method. You may choose a method different than the Fund's standing method and will be able to do so at the time of your purchase or upon the sale of covered shares. Please refer to the appropriate Internal Revenue Service regulations or consult your tax advisor with regard to your personal circumstances.

For those securities defined as "covered" under current Internal Revenue Service cost basis tax reporting regulations, the Fund is responsible for maintaining accurate cost basis and tax lot information for tax reporting purposes. The Fund is not responsible for the reliability or accuracy of the information for those securities that are not "covered." The Fund and its service providers do not provide tax advice. You should consult independent sources, which may include a tax professional, with respect to any decisions you may make with respect to choosing a tax lot identification method.

Certain U.S. shareholders, including individuals and estates and trusts, are subject to an additional 3.8% Medicare tax on all or a portion of their “net investment income,” which should include dividends from the Fund and net gains from the disposition of shares of the Fund. U.S. shareholders are urged to consult their own tax advisors regarding the implications of the additional Medicare tax resulting from an investment in the Fund.

Original Issue Discount, Pay-In-Kind Securities, and Market Discount. Some debt obligations with a fixed maturity date of more than one year from the date of issuance (and zero-coupon debt obligations with a fixed maturity date of more than one year from the date of issuance) that may be acquired by the Fund may be treated as debt obligations that are issued originally at a discount. Generally, the amount of the original issue discount (“OID”) is treated as interest income and is included in the Fund’s taxable income (and required to be distributed by the Fund) over the term of the debt obligation, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt security.

Some debt obligations (with a fixed maturity date of more than one year from the date of issuance) that may be acquired by the Fund in the secondary market may be treated as having “market discount.” Very generally, market discount is the excess of the stated redemption price of a debt obligation (or in the case of an obligations issued with OID, its “revised issue price”) over the purchase price of such obligation. Generally, any gain recognized on the disposition of, and any partial payment of principal on, a debt obligation having market discount is treated as ordinary income to the extent the gain, or principal payment, does not exceed the “accrued market discount” on such debt obligation. Alternatively, the Fund may elect to accrue market discount currently, in which case the Fund will be required to include the accrued market discount in the Fund’s income (as ordinary income) and thus distribute it over the term of the debt security, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt security. The rate at which the market discount accrues, and thus is included in the Fund’s income, will depend upon which of the permitted accrual methods the Fund elects. In the case of higher-risk securities, the amount of market discount may be unclear.

Some debt obligations (with a fixed maturity date of one year or less from the date of issuance) that may be acquired by the Fund may be treated as having “acquisition discount” (very generally, the excess of the stated redemption price over the purchase price), or OID in the case of certain types of debt obligations. The Fund will be required to include the acquisition discount, or OID, in income (as ordinary income) over the term of the debt obligation, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt security. The Fund may make one or more of the elections applicable to debt obligations having acquisition discount, or OID, which could affect the character and timing of recognition of income.

In addition, payment-in-kind securities will, and commodity-linked notes may, give rise to income that is required to be distributed and is taxable even though the Fund holding the security receives no interest payment in cash on the security during the year.

If the Fund holds the foregoing kinds of securities, it may be required to pay out as an income distribution each year an amount that is greater than the total amount of cash interest the Fund actually received. Such distributions may be made from the cash assets of the Fund or by liquidation of portfolio securities, if necessary (including when it is not advantageous to do so).

The Fund may realize gains or losses from such liquidations. In the event the Fund realizes net capital gains from such transactions, its shareholders may receive a larger capital gain distribution than they would in the absence of such transactions.

Tax-Exempt Shareholders. If a shareholder of the Fund is a tax-exempt organization, it is generally not subject to federal income tax on distributions from the Fund or on sales or exchanges of Fund shares. This general exemption from tax does not apply to the “unrelated business taxable income” or UBTI of an exempt organization. UBTI includes dividends, interest, and gains from sales and other dispositions of property held for investment to the extent that such items are attributable to “debt financed property.” For example, UBTI could result if shares in the Fund constitute debt-financed property in the hands of the tax-exempt shareholder within the meaning of Internal Revenue Code Section 514(b). A deduction from one activity that produces UBTI cannot be used to offset income from a different activity that produces UBTI for the same taxable year. UBTI in excess of \$1,000 in any year is taxable and will require a member to file a federal income tax return on Form 990-T. In addition, private foundations that are exempt from federal income tax may nonetheless be subject to excise tax on their net investment income and certain private colleges and universities that are exempt from federal income tax may be subject to an excise tax based on the investment income they earn. Shareholders should ask their own tax advisors for more information on their own tax situation.

At the time a private foundation or certain private colleges or universities purchase Fund shares, the Fund’s net asset value may reflect undistributed income or undistributed capital gains. A subsequent distribution of such amounts, although constituting a return of investment, would be classified as a taxable distribution whether reinvested in additional shares or paid in cash. This is sometimes referred to as “buying a dividend.” In addition, the Fund’s net asset value may, at any time, reflect net unrealized appreciation, which may result in future taxable distributions. (Private colleges and universities with at least 500 tuition-paying students (more than 50% of which are located in the United States) and non-exempt use assets with a value at the close of the preceding year of at least \$500,000 per full-time student (with part-time students taken into account on a full-time student equivalent basis) may be subject to a 1.4% excise tax on their net investment income.)

Furthermore, a tax-exempt shareholder may recognize UBTI if the Fund recognizes “excess inclusion income” derived from direct or indirect investments in residual interests in Real Estate Mortgage Investment Conduits (“REMICs”) or equity interests in Taxable Mortgage Pools (“TMPs”) if the amount of such income recognized by the Fund exceeds the Fund’s investment company taxable income (after taking into account deductions for dividends paid by the Fund). Special tax consequences also apply to charitable remainder trusts (“CRTs”) that invest in regulated investment companies that invest directly or indirectly in residual interests in REMICs or equity interests in TMPs. Under legislation enacted in December 2006, a CRT (as defined in section 664 of the Internal Revenue Code) that realizes any UBTI for a taxable year, must pay an excise tax annually of an amount equal to such UBTI. Under IRS guidance issued in October 2006, a CRT will not recognize UBTI solely as a result of investing in the Fund that recognizes “excess inclusion income.” Rather, if at any time during any taxable year a CRT (or one of certain other tax-exempt shareholders, such as the United States, a state or political subdivision, or an agency or instrumentality thereof, and certain energy cooperatives) is a record holder of a share in the Fund that recognizes “excess inclusion income,” then the regulated investment company will be subject to a tax on that portion of its “excess inclusion income” for the taxable year that is allocable to such shareholders, at the corporate income tax rate. The extent to which this IRS guidance

remains applicable in light of the December 2006 legislation is unclear. To the extent permitted under the 1940 Act, the Fund may elect to specially allocate any such tax to the applicable CRT, or other shareholder, and thus reduce such shareholder's distributions for the year by the amount of the tax that relates to such shareholder's interest in the Fund. The Fund has not yet determined whether such an election will be made. CRTs and other tax-exempt investors are urged to consult their tax advisers concerning the consequences of investing in the Fund.

Passive Foreign Investment Companies. A passive foreign investment company ("PFIC") is any foreign corporation: (i) 75% or more of the gross income of which for the taxable year is passive income, or (ii) the average percentage of the assets of which (generally by value, but by adjusted tax basis in certain cases) that produce or are held for the production of passive income is at least 50%. Generally, passive income for this purpose means dividends, interest (including income equivalent to interest), royalties, rents, annuities, the excess of gains over losses from certain property transactions and commodities transactions, and foreign currency gains. Passive income for this purpose does not include rents and royalties received by the foreign corporation from an active business and certain income received from related persons.

Equity investments by the Fund in certain PFICs could potentially subject the Fund to a U.S. federal income tax or other charge (including interest charges) on the distributions received from the PFIC or on proceeds received from the disposition of shares in the PFIC. This tax cannot be eliminated by making distributions to Fund shareholders. However, the Fund may elect to avoid the imposition of that tax. For example, if the Fund is in a position to and elects to treat a PFIC as a "qualified electing fund" (i.e., make a "QEF election"), the Fund will be required to include its share of the PFIC's income and net capital gains annually, regardless of whether it receives any distribution from the PFIC. Alternatively, the Fund may make an election to mark the gains (and to a limited extent losses) in its PFIC holdings "to the market" as though it had sold and repurchased its holdings in those PFICs on the last day of the Fund's taxable year. Such gains and losses are treated as ordinary income and loss. The QEF and mark-to-market elections may accelerate the recognition of income (without the receipt of cash) and increase the amount required to be distributed by the Fund to avoid taxation. Making either of these elections therefore may require the Fund to liquidate other investments (including when it is not advantageous to do so) to meet its distribution requirement, which also may accelerate the recognition of gain and affect the Fund's total return. Dividends paid by PFICs will not be eligible to be treated as "qualified dividend income."

Because it is not always possible to identify a foreign corporation as a PFIC, the Fund may incur the tax and interest charges described above in some instances.

Foreign Currency Transactions. The Fund's transactions in foreign currencies, foreign currency-denominated debt obligations and certain foreign currency options, futures contracts and forward contracts (and similar instruments) may give rise to ordinary income or loss to the extent such income or loss results from fluctuations in the value of the foreign currency concerned. Any such net gains could require a larger dividend toward the end of the calendar year. Any such net losses will generally reduce and potentially require the recharacterization of prior ordinary income distributions. Such ordinary income treatment may accelerate Fund distributions to shareholders and increase the distributions taxed to shareholders as ordinary income. Any net ordinary losses so created cannot be carried forward by the Fund to offset income or gains earned in subsequent taxable years.

Foreign Taxation. Income received by the Fund from sources within foreign countries, including securities held by the RICs and ETFs in which the Fund invest, may be subject to withholding and other taxes imposed by such countries. Dividends and interest received by a RIC's holding of foreign securities may give rise to withholding and other taxes imposed by foreign countries. Tax conventions between certain countries and the United States may reduce or eliminate such taxes. If the RIC in which the Fund invests is taxable as a RIC and meets certain other requirements, which include a requirement that more than 50% of the value of such RIC's total assets at the close of its respective taxable year consists of stocks or securities of foreign corporations, then the RIC should be eligible to file an election with the IRS that may enable its shareholders, including the Fund in effect, to receive either the benefit of a foreign tax credit, or a tax deduction, with respect to any foreign and U.S. possessions income taxes paid the by Fund, subject to certain limitations.

A "qualified fund of funds" is a RIC that has at least 50% of the value of its total interests invested in other RICs at the end of each quarter of the taxable year. If the Fund satisfied this requirement or if it meets certain other requirements, which include a requirement that more than 50% of the value of the Fund's total assets at the close of its taxable year consist of stocks or securities of foreign corporations, then the Fund should be eligible to file an election with the IRS that may enable its shareholders to receive either the benefit of a foreign tax credit, or a tax deduction, with respect to any foreign and U.S. possessions income taxes paid by the Fund, subject to certain limitations.

Foreign Shareholders. Absent specific statutory exemptions, as described below, dividends paid by the Fund to a shareholder that is not a "U.S. person" within the meaning of the Internal Revenue Code (such shareholder, a "foreign shareholder") are subject to withholding of U.S. federal income tax at a rate of 30% (or lower applicable treaty rate). However, notwithstanding such exemptions from U.S. withholding at the source, any dividends and distributions of income and capital gains, including the proceeds from the sale of your Fund shares, will be subject to backup withholding at a rate of 24% if you fail to properly certify that you are not a U.S. person.

In general, capital gain dividends reported by the Fund to shareholders as paid from its net long-term capital gains, other than long-term capital gains realized on disposition of US real property interests (see the discussion below), are not subject to U.S. withholding tax unless you are a nonresident alien individual present in the U.S. for a period or periods aggregating 183 days or more during the calendar year.

Ordinary dividends paid by the Fund to foreign investors on the income earned on portfolio investments in (i) the stock of domestic and foreign corporations and (ii) the debt of foreign issuers are subject to U.S. withholding tax.

Generally, dividends reported by the Fund to shareholders as interest-related dividends and paid from its qualified net interest income from U.S. sources are not subject to U.S. withholding tax. "Qualified interest income" includes, in general, U.S. source (1) bank deposit interest, (2) short-term original discount, (3) interest (including original issue discount, market discount, or acquisition discount) on an obligation that is in registered form, unless it is earned on an obligation issued by a corporation or partnership in which the Fund is a 10-percent shareholder or is

contingent interest, and (4) any interest-related dividend from another regulated investment company. Similarly, short-term capital gain dividends reported by the Fund to shareholders as paid from its net short-term capital gains, other than short-term capital gains realized on disposition of U.S. real property interests (see the discussion below), are not subject to U.S. withholding tax unless you were a nonresident alien individual present in the U.S. for a period or periods aggregating 183 days or more during the calendar year. The Fund reserves the right to not report interest-related dividends or short-term capital gain dividends. Additionally, the Fund's reporting of interest-related dividends or short-term capital gain dividends may not be passed through to shareholders by intermediaries who have assumed tax reporting responsibilities for this income in managed or omnibus accounts due to systems limitations or operational constraints.

If the income from the Fund is effectively connected with a U.S. trade or business carried on by a foreign shareholder, then ordinary income dividends, capital gain dividends and any gains realized upon the sale or redemption of shares of the Fund will be subject to U.S. federal income tax at the rates applicable to U.S. citizens or domestic corporations and require the filing of a nonresident U.S. income tax return.

Special U.S. tax certification requirements may apply to foreign shareholders both to avoid U.S. backup withholding imposed at a rate of 24% and to obtain the benefits of any treaty between the U.S. and the shareholder's country of residence. In general, if you are a foreign shareholder, you must provide a Form W-8-BEN (or other applicable Form W-8) to establish that you are not a U.S. person, to claim that you are the beneficial owner of the income and, if applicable, to claim a reduced rate of, or exemption from, withholding as a resident of a country with which the U.S. has an income tax treaty. A Form W-8-BEN provided without a U.S. taxpayer identification number will remain in effect for a period beginning on the date signed and ending on the last day of the third succeeding calendar year unless an earlier change of circumstances makes the information on the form incorrect. Certain payees and payments are exempt from backup withholding.

The tax consequences to a foreign shareholder entitled to claim the benefits of an applicable tax treaty may be different from those described herein. Foreign shareholders are urged to consult their own tax advisors with respect to the particular tax consequences to them of an investment in the Fund, including the applicability of foreign tax.

Backup Withholding. The Fund generally is required to withhold and remit to the U.S. Treasury a percentage of the taxable distributions and redemption proceeds paid to any individual shareholder who fails to properly furnish the Fund with a correct taxpayer identification number, who has under-reported dividend or interest income, or who fails to certify to the Fund that he or she is not subject to such withholding. The backup withholding tax rate is 24%.

Backup withholding is not an additional tax. Any amounts withheld may be credited against the shareholder's U.S. federal income tax liability, provided the appropriate information is furnished to the IRS.

FATCA. Income dividend payments made to a shareholder that is either a foreign financial institution ("FFI") or a non-financial foreign entity ("NFFE") within the meaning of the Foreign Account Tax Compliance Act ("FATCA") may be subject to a 30% withholding tax. After December 31, 2018, FATCA withholding also would have applied to certain capital gain

distributions, return of capital distributions, and the proceeds arising from the sale of Fund shares; however, based on proposed regulations issued by the IRS, which can be relied on currently, such withholding is no longer required unless final regulations provide otherwise (which is not expected). The FATCA withholding tax generally can be avoided: (a) by an FFI, subject to any applicable intergovernmental agreement or other exemption, if it enters into a valid agreement with the IRS to, among other requirements, report required information about certain direct and indirect ownership of foreign financial accounts held by U.S. persons with the FFI and (b) by an NFFE, if it: (i) certifies that it has no substantial U.S. persons as owners or (ii) if it does have such owners, reports information relating to them. The Fund may disclose the information that it receives from its shareholders to the IRS, non-U.S. taxing authorities or other parties as necessary to comply with FATCA. Withholding also may be required if a foreign entity that is a shareholder of the Fund fails to provide the Fund with appropriate certifications or other documentation concerning its status under FATCA.

Tax Shelter Reporting Regulations. Under U.S. Treasury regulations, if a shareholder recognizes a loss with respect to the Fund's shares of \$2 million or more for an individual shareholder or \$10 million or more for a corporate shareholder, the shareholder must file with the IRS a disclosure statement on Form 8886. Direct shareholders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, shareholders of a regulated investment company are not excepted. Future guidance may extend the current exception from this reporting requirement to shareholders of most or all regulated investment companies. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer's treatment of the loss is proper. Shareholders should consult their tax advisers to determine the applicability of these regulations in light of their individual circumstances.

Shareholder Reporting Obligations with Respect to Foreign Financial Assets. Specified individuals and specified domestic entities that have an interest in a "specified foreign financial asset" above a certain threshold amount must disclose annually their interests in such assets on IRS Form 8938, which is filed with their U.S. federal income tax return.

Shares Purchased through Tax-Qualified Plans. Special tax rules apply to investments through defined contribution plans and other tax-qualified plans. Shareholders should consult their tax advisers to determine the suitability of shares of the Fund as an investment through such plans, and the precise effect of an investment on their particular tax situation.

Certain In-Kind Transfers. The Fund may accept in-kind transfers of securities in exchange for Fund shares. Such transactions will be evaluated on a case by case basis by the Fund and the Adviser and there can be no assurance that the Fund will accept any particular in-kind transfer. The tax implications of such a transfer are complex and depend upon various factors including but not limited to whether the securities transferred are adequately diversified and whether the transferring shareholder is deemed to be in "control" of the Fund. Any shareholder or potential shareholder contemplating an in-kind transfer to the Fund should consult his or her own tax advisers.

Summary. The foregoing is a general and abbreviated summary of the provisions of the Internal Revenue Code and the Treasury regulations in effect as they directly govern the taxation of the Fund and its shareholders, and should not be considered tax advice. These provisions are

subject to change by legislative and administrative action, and any such change may be retroactive. Shareholders are urged to consult their tax advisers regarding specific questions as to U.S. federal income, estate or gift taxes, or foreign, state, local taxes or other taxes.

CUSTODIAN

Huntington National Bank, 41 South High Street, Columbus, Ohio 43215, is custodian of the Fund's investments. The custodian acts as the Fund's depository, safekeeps its portfolio securities, collects all income and other payments with respect thereto, disburses funds at the Fund's request and maintains records in connection with its duties.

FUND SERVICES

Ultimus Fund Solutions, LLC ("Ultimus"), 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246, acts as the Fund's transfer agent, fund accountant, and administrator. Ultimus is the parent company of the distributor, Ultimus Fund Distributors, LLC (the "Distributor"). Certain officers of the Trust also are officers and/or employees of Ultimus, the Distributor, and/or NLCS (defined below).

Ultimus maintains the records of each shareholder's account, answers shareholders' inquiries concerning their accounts, processes purchases and redemptions of the Fund's shares, acts as dividend and distribution disbursing agent and performs other transfer agent and shareholder service functions.

In addition, Ultimus provides the Fund with fund accounting services, which includes certain monthly reports, record-keeping and other management-related services.

Ultimus also provides the Fund with administrative services, including all regulatory reporting and necessary office equipment, personnel and facilities.

The following table provides information regarding transfer agent, fund accounting and administrative services fees paid by the Fund during the periods indicated.

Fiscal Year Ended	Fees Paid for Transfer Agent Services	Fees Paid for Accounting Services	Fees Paid for Administrative Services
January 31, 2024	\$13,029	\$33,721	\$40,574
January 31, 2023	\$12,300	\$31,915	\$34,750
January 31, 2022	\$12,000	\$31,270	\$42,000

Northern Lights Compliance Services, LLC ("NLCS"), an affiliate of Ultimus, provides a Chief Compliance Officer to the Trust, as well as related compliance services, pursuant to a consulting agreement between NLCS and the Trust. For the fiscal year ended January 31, 2024, NLCS received fees in the amount of \$17,000 from the Fund.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Cohen & Company, Ltd., 1350 Euclid Avenue, Suite 800, Cleveland, OH 44115 (“Cohen”) has been selected as the Independent Registered Public Accounting Firm for the Fund for the fiscal year ending January 31, 2025. Cohen will perform an annual audit of the Fund’s financial statements and will provide financial, tax and accounting services as requested.

LEGAL COUNSEL

Troutman Pepper Hamilton Sanders LLP serves as legal counsel to the Trust and Fund. Its address is 3000 Two Logan Square, Philadelphia, PA 19103.

DISTRIBUTOR

Ultimus Fund Distributors, LLC, 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246, is the exclusive agent for distribution of shares of the Fund. The Distributor is a wholly-owned subsidiary of Ultimus.

The Distributor is obligated to sell the shares of the Fund on a best efforts basis only against purchase orders for the shares. Shares of the Fund are offered to the public on a continuous basis.

FINANCIAL STATEMENTS

The financial statements and the report of the Independent Registered Public Accounting Firm required to be included in the SAI are incorporated herein by reference to the Fund’s Annual Report to Shareholders for the fiscal year ended January 31, 2024. You can obtain the Annual Report without charge by calling Shareholder Services at (800) 789-1087 or upon written request to:

VALUED ADVISERS TRUST PROXY VOTING POLICY AND PROCEDURES

The Valued Advisers Trust (the “Trust”) is registered as an open-end management investment company under the Investment Company Act of 1940, as amended (“1940 Act”). The Trust offers multiple series (each a “Fund” and, collectively, the “Funds”). Consistent with its fiduciary duties and pursuant to Rule 30b1-4 under the 1940 Act (the “Proxy Rule”), the Board of Trustees of the Valued Advisers Trust (the “Board”) has adopted this proxy voting policy on behalf of the Trust (the “Policy”) to reflect its commitment to ensure that proxies are voted in a manner consistent with the best interests of the Funds’ shareholders.

Pursuant to rules established by the SEC under the 1940 Act, the Board has delegated authority to vote proxies to the investment adviser of each Fund (each, an “Adviser” and collectively, the “Advisers”) and has approved formal, written guidelines for proxy voting as adopted by the Advisers to the Trust’s Funds. The Board maintains oversight of the voting policies and procedures for each Fund.

Each Fund exercises its proxy voting rights with regard to the companies in the Fund’s investment portfolio, with the goals of maximizing the value of the portfolio’s investments, promoting accountability of a company’s management and board of directors to its shareholders, aligning the interests of management with those of shareholders, and increasing transparency of a company’s business and operations.

In general, the Board believes that the Fund Adviser, which selects the individual companies that are part of each Fund’s portfolio, is the most knowledgeable and best suited to make decisions about proxy votes. Therefore, the Trust defers to and relies on the Funds’ Adviser to make decisions on casting proxy votes.

An Adviser to a Fund may, but is not required to, further delegate the responsibility for voting proxies relating to portfolio securities held by the Fund to one or more of the sub-advisers retained to provide investment advisory services to such Fund, if any (each a “Sub-Adviser”). If such responsibility is delegated to a Sub-Adviser, then the Sub-Adviser shall assume the fiduciary duty and reporting responsibilities of the Adviser under these policy guidelines. As used in these Policies and Procedures, the term “Adviser” includes any and all Sub-Advisers.

Pursuant to Rule 12d1-4, a Fund must mirror vote proposals on proxies issued by underlying investment companies in the event that such Fund and its advisory group (as defined in Rule 12d1-4) own more than 25% of the shares of any one investment company. Mirror voting means that the Fund votes its shares in the same proportion that all shares of the underlying investment company are voted, or in accordance with instructions received from Fund shareholders.

Each Fund shall disclose in its Statement of Additional Information the policies and procedures that it uses to vote proxies relating to portfolio securities. In addition, each Fund shall make available to shareholders, either on its website or upon request, the record of how the Trust voted proxies relating to portfolio securities.

Each Fund shall disclose in its annual and semi-annual reports to shareholders and in its registration statement the methods by which shareholders may obtain information about the Fund's proxy voting policies and procedures and the Fund's proxy voting record.

If a Fund has a website, the Fund may post a copy of its Adviser's proxy voting policy and this Policy on such website. A copy of such policies and of each Fund's proxy voting record shall also be made available, without charge, upon request of any shareholder of the Fund, by calling the applicable Fund's toll-free telephone number as printed in the Fund's prospectus. The Trust's administrator shall reply to any Fund shareholder request within three business days of receipt of the request, by first-class mail or other means designed to ensure equally prompt delivery.

The Adviser shall provide quarterly certifications with respect to its adherence to its proxy voting and exemptive order policies and procedures.

Responsible Party: Adviser

1.0 POLICY STATEMENT

Belmont Capital Group's ("BCG") policy and procedures for voting proxies ("Policy") with respect to securities held in the accounts of clients applies when BCG provides discretionary investment management services and for which BCG has agreed to accept proxy authority to vote client securities. This Policy is reviewed and updated as necessary to address new and evolving proxy voting issues and standards.

BCG accepts proxy authority to vote client securities on a per agreement basis. Generally, BCG does not accept proxy authority to vote client securities. In the general case, clients will receive proxies or other solicitations directly from their custodian or a transfer agent, and in the event that proxies are sent to BCG, we will forward them to the client and ask the party who sent them to mail them directly to the client in the future. These clients may call, write or e-mail BCG to discuss questions they may have about particular proxy votes or other solicitations.

In the case where BCG has agreed to accept proxy authority to vote client securities, in order to comply with Rule 206(4)-6, BCG has:

- A. Adopted and implemented these written policies and procedures that are reasonably designed to ensure that BCG votes client securities in the best interest of clients. These procedures include how BCG addresses material conflicts that may arise between BCG's interests and those of BCG's clients;
- B. Disclosed to clients how they may obtain information from BCG about how BCG voted with respect to their securities; and
- C. Described to clients the BCG Proxy Voting Policies & Procedures, and upon request furnish a copy of the BCG Proxy Voting Policies & Procedures to the requesting client.

BCG has agreed to accept proxy authority to vote client securities for the Belmont Theta Income Fund (the "Fund"). For the Fund, BCG will vote proxies under this Policy pursuant to authority granted under its applicable investment advisory agreement or, in the absence of such authority, as authorized by the Board of Directors/Trustees of the Fund. Pursuant to Rule 270.30b1-4, Ultimus Fund Solutions shall file an annual report on Form N-PX not later than August 31 of each year, containing the BCG's proxy voting record for the most recent twelve-month period ended June 30. BCG will provide Ultimus Fund Solutions with Records of Votes Cast on Behalf of clients in order to file Form N-PX.

BCG will use its best efforts to vote proxies as part of its authority to manage, acquire and dispose of client assets. BCG will vote proxies in a prudent and diligent manner and in the best interests of clients, including beneficiaries of and participants in a client's benefit plan(s) for which BCG manage assets, consistent with the objective of maximizing long-term investment returns ("Client Proxy Standard").

The overarching objective in voting is simple: to support proposals and director nominees that maximize the value of a fund's investments - and those of fund shareholders - over the long term. Although the goal is simple, the proposals BCG may receive are varied and frequently complex. As such, the Policy adopted by BCG provides a rigorous framework for assessing each proposal. Under the Policy, each proposal must be evaluated on its merits, based on the particular facts and circumstances as presented.

The Policy does not permit BCG to delegate voting responsibility to a third-party that does not serve as a fiduciary. Because many factors bear on each decision, the Policy incorporates factors BCG should consider in each voting decision. BCG may refrain from voting some or all of its shares if doing so would be in the clients' best interests. These circumstances may arise, for example, if the expected cost of voting exceeds the expected benefits of voting, or if exercising the vote would result in the imposition of trading or other restrictions.

In evaluating proxy proposals, BCG considers information from many sources, which may include the management or shareholders of a company presenting a proposal, and independent proxy research services. We will give substantial weight to the recommendations of the company's board, absent guidelines or other specific facts that would support a vote against management. In all cases, however, the ultimate decision rests with BCG. BCG may abstain on matters for which disclosure is inadequate.

While serving as a framework, the following Policy cannot contemplate all possible proposals with which BCG may be presented. In the absence of a specific guideline for a particular proposal (e.g., in the case of a transactional issue or contested proxy), BCG will evaluate the issue and cast the vote in a manner that, in BCG's view, will maximize the value of the client's investment.

2.0 GENERAL PROXY VOTING GUIDELINES

To promote consistency in voting proxies on behalf of our clients, we follow this Policy (subject to any exception set forth herein). The Policy addresses a broad range of issues, and provides general voting parameters on proposals that arise most frequently. However, details of specific proposals vary, and those details affect particular voting decisions, as do factors specific to a given company. Pursuant to the procedures set forth herein, BCG may vote in a manner that is not in accordance with the following general guidelines, provided the vote is consistent with the Client Proxy Standard. BCG may abstain on matters for which disclosure is inadequate.

2.1 Routine Matters

BCG generally supports routine management proposals. The following are examples of routine management proposals:

- Approval of financial statements and auditor reports if delivered with an unqualified auditor's opinion.
- General updating/corrective amendments to the charter, articles of association or bylaws, unless we believe that such amendments would diminish shareholder rights.
- Most proposals related to the conduct of the annual meeting, with the following exceptions. We generally oppose proposals that relate to "the transaction of such other business which may come before the meeting," and open-ended requests for adjournment. However, where management specifically states the reason for requesting an adjournment and the requested adjournment would facilitate passage of a proposal that would otherwise be supported under this Policy (i.e., an uncontested corporate transaction), the adjournment request will be supported. We do not support proposals that allow companies to call a special meeting with a short (generally two weeks or less) time frame for review.

We generally support shareholder proposals advocating confidential voting procedures and independent tabulation of voting results.

2.2 Board of Directors

A. Election of Directors

Votes on board nominees can involve balancing a variety of considerations. In vote decisions, we may take into consideration whether the company has a majority voting policy in place that we believe makes the director vote more meaningful. In the absence of a proxy contest, we generally support the board's nominees for director except as follows:

- i. We consider withholding support from or voting against a nominee if we believe a direct conflict exists between the interests of the nominee and the public shareholders, including failure to meet fiduciary standards of care and/or loyalty. We may oppose directors where we conclude that actions of directors are unlawful, unethical or negligent. We consider opposing individual board members or an entire slate if we believe the board is entrenched and/or dealing inadequately with performance problems; if we believe the board is acting with insufficient independence between the board and management; or if we believe the board has not been sufficiently forthcoming with information on key governance or other material matters.
- ii. We consider withholding support from or voting against interested directors if the company's board does not meet market standards for director independence, or if otherwise we believe board independence is insufficient. We refer to prevalent market standards as promulgated by a stock exchange or other authority within a given market (e.g., New York Stock Exchange or NASDAQ rules for most U.S. companies, and The Combined Code on Corporate Governance in the United Kingdom). Thus, for an NYSE company with no controlling shareholder, we would expect that at a minimum a majority of directors should be independent as defined by NYSE. Where we view market standards as inadequate, we may withhold votes based on stronger independence standards. Market standards notwithstanding, we generally do not view long board tenure alone as a basis to classify a director as non-independent.
 - At a company with a shareholder or group that controls the company by virtue of a majority economic interest in the company, we have a reduced expectation for board independence, although we believe the presence of independent directors can be helpful, particularly in staffing the audit committee, and at times we may withhold support from or vote against a nominee on the view the board or its committees are not sufficiently independent. In markets where board independence is not the norm (e.g. Japan), however, we consider factors including whether a board of a controlled company includes independent members who can be expected to look out for interests of minority holders.
 - We consider withholding support from or voting against a nominee if he or she is affiliated with a major shareholder that has representation on a board disproportionate to its economic interest.

- iii. Depending on market standards, we consider withholding support from or voting against a nominee who is interested and who is standing for election as a member of the company's compensation/remuneration, nominating/governance or audit committee.
- iv. We consider withholding support from or voting against nominees if the term for which they are nominated is excessive. We consider this issue on a market-specific basis.
- v. We consider withholding support from or voting against nominees if in our view there has been insufficient board renewal (turnover), particularly in the context of extended poor company performance.
- vi. We consider withholding support from or voting against a nominee standing for election if the board has not taken action to implement generally accepted governance practices for which there is a "bright line" test. For example, in the context of the U.S. market, failure to eliminate a dead hand or slow hand poison pill would be seen as a basis for opposing one or more incumbent nominees.
- vii. In markets that encourage designated audit committee financial experts, we consider voting against members of an audit committee if no members are designated as such. We also consider voting against the audit committee members if the company has faced financial reporting issues and/or does not put the auditor up for ratification by shareholders.
- viii. We believe investors should have the ability to vote on individual nominees, and may abstain or vote against a slate of nominees where we are not given the opportunity to vote on individual nominees.
- ix. We consider withholding support from or voting against a nominee who has failed to attend at least 75% of the nominee's board and board committee meetings within a given year without a reasonable excuse. We also consider opposing nominees if the company does not meet market standards for disclosure on attendance.
- x. We consider withholding support from or voting against a nominee who appears overcommitted, particularly through service on an excessive number of boards. Market expectations are incorporated into this analysis; for U.S. boards, we generally oppose election of a nominee who serves on more than five public company boards (excluding investment companies), or public company CEOs that serve on more than two outside boards given level of time commitment required in their primary job.
- xi. We consider withholding support from or voting against a nominee where we believe executive remuneration practices are poor, particularly if the company does not offer shareholders a separate "say-on-pay" advisory vote on pay

B. Discharge of Directors' Duties

In markets where an annual discharge of directors' responsibility is a routine agenda item, we generally support such discharge. However, we may vote against discharge or abstain from voting where there are serious findings of fraud or other unethical behavior for which the individual bears responsibility. The annual discharge of responsibility represents shareholder

approval of disclosed actions taken by the board during the year and may make future shareholder action against the board difficult to pursue.

C. Board Independence

We generally support U.S. shareholder proposals requiring that a certain percentage (up to 66 $\frac{2}{3}$ %) of the company's board members be independent directors, and promoting all- independent audit, compensation and nominating/governance committees.

D. Board Diversity

We consider on a case-by-case basis shareholder proposals urging diversity of board membership with respect to gender, race or other factors.

E. Majority Voting

We generally support proposals requesting or requiring majority voting policies in election of directors, so long as there is a carve-out for plurality voting in the case of contested elections.

F. Proxy Access

We consider proposals on procedures for inclusion of shareholder nominees and to have those nominees included in the company's proxy statement and on the company's proxy ballot on a case-by-case basis. Considerations include ownership thresholds, holding periods, the number of directors that shareholders may nominate and any restrictions on forming a group.

G. Reimbursement for Dissident Nominees

We generally support well-crafted U.S. shareholder proposals that would provide for reimbursement of dissident nominees elected to a board, as the cost to shareholders in electing such nominees can be factored into the voting decision on those nominees.

H. Proposals to Elect Directors More Frequently

In the U.S. public company context, we usually support shareholder and management proposals to elect all directors annually (to "declassify" the board), although we make an exception to this policy where we believe that long-term shareholder value may be harmed by this change given particular circumstances at the company at the time of the vote on such proposal. As indicated above, outside the United States we generally support greater accountability to shareholders that comes through more frequent director elections, but recognize that many markets embrace longer term lengths, sometimes for valid reasons given other aspects of the legal context in electing boards.

I. Cumulative Voting

We generally support proposals to eliminate cumulative voting in the U.S. market context. (Cumulative voting provides that shareholders may concentrate their votes for one or a handful of candidates, a system that can enable a minority bloc to place representation on a board.) U.S. proposals to establish cumulative voting in the election of directors generally will not be supported.

J. Separation of Chairman and CEO Positions

We vote on shareholder proposals to separate the Chairman and CEO positions and/or to appoint an independent Chairman based in part on prevailing practice in particular markets, since the context for such a practice varies. In many non-U.S. markets, we view separation of the roles as a market standard practice, and support division of the roles in that context. In the United States, we consider such proposals on a case-by-case basis, considering, among other things, the existing board leadership structure, company performance, and any evidence of entrenchment or perceived risk that power is overly concentrated in a single individual.

K. Director Retirement Sage and Term Limits

Proposals setting or recommending director retirement ages or director term limits are voted on a case-by-case basis that includes consideration of company performance, the rate of board renewal, evidence of effective individual director evaluation processes, and any indications of entrenchment.

L. Proposals to Limit Directors' Liability and/or Broaden Indemnification of Officers and Directors

Generally, we will support such proposals provided that an individual is eligible only if he or she has not acted in bad faith, with gross negligence or with reckless disregard of their duties.

2.3 Statutory Auditor Boards

The statutory auditor board, which is separate from the main board of directors, plays a role in corporate governance in several markets. These boards are elected by shareholders to provide assurance on compliance with legal and accounting standards and the company's articles of association. We generally vote for statutory auditor nominees if they meet independence standards. In markets that require disclosure on attendance by internal statutory auditors, however, we consider voting against nominees for these positions who failed to attend at least 75% of meetings in the previous year. We also consider opposing nominees if the company does not meet market standards for disclosure on attendance.

2.4 Corporate Transactions and Proxy Fights

We examine proposals relating to mergers, acquisitions and other special corporate transactions (i.e., takeovers, spin-offs, sales of assets, reorganizations, restructurings and recapitalizations) on a case-by-case basis in the interests of each fund or other account. Proposals for mergers or other significant transactions that are friendly and approved by the Research Providers usually are supported if there is no portfolio manager objection. We also analyze proxy contests on a case-by-case basis.

2.5 Changes in Capital Structure

A. We generally support the following:

- Management and shareholder proposals aimed at eliminating unequal voting rights, assuming fair economic treatment of classes of shares we hold.

- U.S. management proposals to increase the authorization of existing classes of common stock (or securities convertible into common stock) if: (i) a clear business purpose is stated that we can support and the number of shares requested is reasonable in relation to the purpose for which authorization is requested; and/or (ii) the authorization does not exceed 100% of shares currently authorized and at least 30% of the total new authorization will be outstanding. (We consider proposals that do not meet these criteria on a case-by-case basis.)
- U.S. management proposals to create a new class of preferred stock or for issuances of preferred stock up to 50% of issued capital, unless we have concerns about use of the authority for anti-takeover purposes.
- Proposals in non-U.S. markets that in our view appropriately limit potential dilution of existing shareholders. A major consideration is whether existing shareholders would have preemptive rights for any issuance under a proposal for standing share issuance authority. We generally consider market-specific guidance in making these decisions; for example, in the U.K. market we usually follow Association of British Insurers' ("ABI") guidance, although company-specific factors may be considered and for example, may sometimes lead us to voting against share authorization proposals even if they meet ABI guidance.
- Management proposals to authorize share repurchase plans, except in some cases in which we believe there are insufficient protections against use of an authorization for anti-takeover purposes.
- Management proposals to reduce the number of authorized shares of common or preferred stock, or to eliminate classes of preferred stock.
- Management proposals to effect stock splits.
- Management proposals to effect reverse stock splits if management proportionately reduces the authorized share amount set forth in the corporate charter. Reverse stock splits that do not adjust proportionately to the authorized share amount generally will be approved if the resulting increase in authorized shares coincides with the proxy guidelines set forth above for common stock increases.
- Management dividend payout proposals, except where we perceive company payouts to shareholders as inadequate.

B. We generally oppose the following (notwithstanding management support):

- Proposals to add classes of stock that would substantially dilute the voting interests of existing shareholders.
- Proposals to increase the authorized or issued number of shares of existing classes of stock that are unreasonably dilutive, particularly if there are no preemptive rights for existing shareholders. However, depending on market practices, we consider voting for proposals giving general authorization for issuance of shares not subject to pre-emptive

rights if the authority is limited.

- Proposals that authorize share issuance at a discount to market rates, except where authority for such issuance is de minimis, or if there is a special situation that we believe justifies such authorization (as may be the case, for example, at a company under severe stress and risk of bankruptcy).
- Proposals relating to changes in capitalization by 100% or more.

We consider on a case-by-case basis shareholder proposals to increase dividend payout ratios, in light of market practice and perceived market weaknesses, as well as individual company payout history and current circumstances. For example, currently we perceive low payouts to shareholders as a concern at some Japanese companies, but may deem a low payout ratio as appropriate for a growth company making good use of its cash, notwithstanding the broader market concern.

2.6 Takeover Defenses and Shareholder Rights

A. Shareholder Rights Plans

We generally support proposals to require shareholder approval or ratification of shareholder rights plans (poison pills). In voting on rights plans or similar takeover defenses, we consider on a case-by-case basis whether the company has demonstrated a need for the defense in the context of promoting long-term share value; whether provisions of the defense are in line with generally accepted governance principles in the market (and specifically the presence of an adequate qualified offer provision that would exempt offers meeting certain conditions from the pill); and the specific context if the proposal is made in the midst of a takeover bid or contest for control.

B. Supermajority Voting Requirements

We generally oppose requirements for supermajority votes to amend the charter or bylaws, unless the provisions protect minority shareholders where there is a large shareholder. In line with this view, in the absence of a large shareholder we support reasonable shareholder proposals to limit such supermajority voting requirements. Also, we oppose provisions that do not allow shareholders any right to amend the charter or bylaws.

C. Shareholders Right to Call a Special Meeting

We consider proposals to enhance a shareholder's rights to call meetings on a case-by-case basis. At large-cap U.S. companies, we generally support efforts to establish the right of holders of 10% or more of shares to call special meetings, unless the board or state law has set a policy or law establishing such rights at a threshold that we believe to be acceptable.

D. Written Consent Rights

In the U.S. context, we examine proposals for shareholder written consent rights on a case-by-case basis.

E. Reincorporation

We consider management and shareholder proposals to reincorporate to a different jurisdiction on a case-by-case basis. We oppose such proposals if we believe the main purpose is to take advantage of laws or judicial precedents that reduce shareholder rights.

F. Anti-Greenmail Provisions

Proposals relating to the adoption of anti-greenmail provisions will be supported, provided that the proposal: (i) defines greenmail; (ii) prohibits buyback offers to large block holders (holders of at least 1% of the outstanding shares and in certain cases, a greater amount) not made to all shareholders or not approved by disinterested shareholders; and (iii) contains no anti-takeover measures or other provisions restricting the rights of shareholders.

G. Bundled Proposals

We may consider opposing or abstaining on proposals if disparate issues are “bundled” and presented for a single vote.

2.7 Auditors

We generally support management proposals for selection or ratification of independent auditors. However, we may consider opposing such proposals with reference to incumbent audit firms if the company has suffered from serious accounting irregularities and we believe rotation of the audit firm is appropriate, or if fees paid to the auditor for non-audit-related services are excessive. Generally, to determine if non-audit fees are excessive, a 50% test will be applied (i.e., non-audit-related fees should be less than 50% of the total fees paid to the auditor). We generally vote against proposals to indemnify auditors.

2.8 Executive and Director Remuneration

A. We generally support the following:

- Proposals for employee equity compensation plans and other employee ownership plans, provided that our research does not indicate that approval of the plan would be against shareholder interest. Such approval may be against shareholder interest if it authorizes excessive dilution and shareholder cost, particularly in the context of high usage (“run rate”) of equity compensation in the recent past; or if there are objectionable plan design and provisions.
- Proposals relating to fees to outside directors, provided the amounts are not excessive relative to other companies in the country or industry, and provided that the structure is appropriate within the market context. While stock-based compensation to outside directors is positive if moderate and appropriately structured, we are wary of significant stock option awards or other performance-based awards for outside directors, as well as provisions that could result in significant forfeiture of value on a director’s decision to resign from a board (such forfeiture can undercut director independence).

- Proposals for employee stock purchase plans that permit discounts, but only for grants that are part of a broad-based employee plan, including all non-executive employees, and only if the discounts are limited to a reasonable market standard or less.
- Proposals for the establishment of employee retirement and severance plans, provided that our research does not indicate that approval of the plan would be against shareholder interest.

B. We generally oppose retirement plans and bonuses for non-executive directors and independent statutory auditors.

C. Severance Agreements

We generally vote against shareholder proposals requiring shareholder approval of all severance agreements, but we generally support proposals that require shareholder approval for agreements in excess of three times the annual compensation (salary and bonus) or proposals that require companies to adopt a provision requiring an executive to receive accelerated vesting of equity awards if there is a change of control and the executive is terminated. We generally oppose shareholder proposals that would establish arbitrary caps on pay. We consider on a case-by-case basis shareholder proposals that seek to limit Supplemental Executive Retirement Plans (SERPs), but support such shareholder proposals where we consider SERPs excessive.

D. Pay-for-Performance Models

Shareholder proposals advocating stronger and/or particular pay-for-performance models will be evaluated on a case-by-case basis, with consideration of the merits of the individual proposal within the context of the particular company and its labor markets, and the company's current and past practices. While we generally support emphasis on long-term components of senior executive pay and strong linkage of pay to performance, we consider factors including whether a proposal may be overly prescriptive, and the impact of the proposal, if implemented as written, on recruitment and retention.

E. Stock Ownership Guidelines

We generally support proposals advocating reasonable senior executive and director stock ownership guidelines and holding requirements for shares gained in executive equity compensation programs.

F. "Claw-Back" Provisions

We generally support shareholder proposals for reasonable "claw-back" provisions that provide for company recovery of senior executive bonuses to the extent they were based on achieving financial benchmarks that were not actually met in light of subsequent restatements.

G. Re-Price Stock Options

Management proposals effectively to re-price stock options are considered on a case-by-case basis. Considerations include the company's reasons and justifications for a re-pricing,

the company's competitive position, whether senior executives and outside directors are excluded, potential cost to shareholders, whether the re-pricing or share exchange is on a value-for-value basis, and whether vesting requirements are extended.

H. Say-on-Pay

We consider proposals relating to an advisory vote on remuneration on a case-by-case basis. Considerations include a review of the relationship between executive remuneration and performance based on operating trends and total shareholder return over multiple performance periods. In addition, we review remuneration structures and potential poor pay practices, including relative magnitude of pay, discretionary bonus awards, tax gross ups, change-in-control features, internal pay equity and peer group construction. As long-term investors, we support remuneration policies that align with long-term shareholder returns.

2.9 Social, Political and Environmental Issues

Shareholders in the United States and certain other markets submit proposals encouraging changes in company disclosure and practices related to particular social and environmental matters. We consider how to vote on the proposals on a case-by-case basis to determine likely impacts on shareholder value. We seek to balance concerns on reputational and other risks that lie behind a proposal against costs of implementation, while considering appropriate shareholder and management prerogatives. We may abstain from voting on proposals that do not have a readily determinable financial impact on shareholder value. We support proposals that if implemented would enhance useful disclosure, but we generally vote against proposals requesting reports that we believe are duplicative, related to matters not material to the business, or that would impose unnecessary or excessive costs. We believe that certain social and environmental shareholder proposals may intrude excessively on management prerogatives, which can lead us to oppose them.

3.0 ADMINISTRATION OF POLICY

The BCG Compliance Committee (the "Committee") has overall responsibility for the Policy. The Committee consists of the Managing Partners, and is chaired by the Chief Compliance Officer ("CCO"). Because proxy voting is an investment responsibility and impacts shareholder value, and because of their knowledge of companies and markets, other members of investment staff may play a key role in proxy voting, although the Committee has final authority over proxy votes.

The CCO is responsible for identifying issues that require Committee deliberation or ratification. The CCO will monitor corporate actions of all public companies for which the Fund has invested in the company's securities. At least 30 days prior to August 31, the CCO shall review corporate action records to determine whether any proxy votes were cast on behalf of the Fund for which reports were not filed. If an unreported vote is discovered, the CCO shall determine and document the explanation.

The CCO, working with advice the Committee, is responsible for voting on routine items and on matters that can be addressed in line with these Policy guidelines. The CCO has responsibility for voting case-by-case where guidelines and precedent provide adequate guidance.

The Committee will periodically review and have the authority to amend, as necessary, the Policy and establish and direct voting positions consistent with the Client Proxy Standard.

The CCO and members of the Committee may take into account third-parties' recommendations and research as well as any other relevant information they may request or receive, including portfolio manager and/or analyst comments and research, as applicable.

3.1 Committee Procedures

The Committee meets at least quarterly, and reviews and considers changes to the Policy at least annually. Through meetings and/or written communications, the Committee is responsible for monitoring and ratifying "split votes" (i.e., allowing certain shares of the same issuer that are the subject of the same proxy solicitation and held by one or more BCG portfolios to be voted differently than other shares) and/or "override voting" (i.e., voting all BCG portfolio shares in a manner contrary to the Policy). The Committee will review developing issues and approve upcoming votes, as appropriate, for matters as requested by the CCO.

The Committee reserves the right to review voting decisions at any time and to make voting decisions as necessary to ensure the independence and integrity of the votes.

3.2 Material Conflicts of Interest

In addition to the procedures discussed above, if the CCO determines that an issue raises a material conflict of interest, the CCO may request a special committee to review, and recommend a course of action with respect to, the conflict(s) in question ("Special Committee").

A potential material conflict of interest could exist in the following situations, among others:

- i. The issuer soliciting the vote is a client of BCG and the vote is on a matter that materially affects the issuer.
- ii. BCG has a material pecuniary interest in the matter submitted for a vote (e.g., acting as a financial advisor to a party to a merger or acquisition for which BCG will be paid a success fee if completed).
- iii. One of BCG's employees or one of BCG Funds' directors also serves on the board of directors or is a nominee for election to the board of directors of a company held by a BCG Fund or affiliate.

If the CCO determines that an issue raises a potential material conflict of interest, depending on the facts and circumstances, the issue will be addressed as follows:

- i. If the matter relates to a topic that is discussed in this Policy, the proposal will be voted as per the Policy.
- ii. If the matter is not discussed in this Policy or the Policy indicates that the issue is to be decided case-by-case, the proposal will be voted in a manner consistent with a survey of at least three other recommendations, provided that all surveyed recommendations are the same, no Managing Partner objects to that vote, and the vote is consistent with BCG's Client Proxy Standard.

- iii. If the surveyed recommendations differ, the CCO will refer the matter to a Special Committee to vote on the proposal, as appropriate.

Any Special Committee shall be comprised of the Committee which will engage a leading independent provider of proxy research and voting recommendations. The proposal will be voted in a manner consistent with the recommendation from this independent expert.

3.3 Proxy Voting Reporting

The CCO will document in writing all Committee and Special Committee decisions and actions, which documentation will be maintained by the CCO for a period of at least six years. To the extent these decisions relate to a security held by a BCG Fund, the CCO will report the decisions to each applicable Board of Trustees/Directors of those Funds at each Board's next regularly scheduled Board meeting. The report will contain information concerning decisions made during the most recently ended calendar quarter immediately preceding the Board meeting.

BCG will promptly provide a copy of this Policy to any client requesting it. BCG will also, upon client request, promptly provide a report indicating how each proxy was voted with respect to securities held in that client's account.

Ultimus Fund Solutions is responsible for filing an annual Form N-PX on behalf of the Belmont Theta Income Fund as required, indicating how all proxies were voted with respect to such Fund's holdings.

EXHIBIT C

Governance and Nominating Committee Charter Valued Advisers Trust

Governance and Nominating Committee Membership

1. The Governance and Nominating Committee (the “Committee”) of Valued Advisers Trust (“Trust”) shall be composed entirely of Independent Trustees.

Governance and Functions

1. The Committee shall assist the Board in adopting fund governance practices and reviewing the Trust’s fund governance standards.
2. To carry out this purpose, the Committee shall have the following duties and powers:
 - a. To periodically review workload, size, and composition of the Board;
 - b. To periodically review the qualifications and independence of the members of the Board;
 - c. To periodically review the compensation of the Independent Trustees;
 - d. To monitor, as necessary, regulatory developments, rule changes and industry best practices in fund governance;
 - e. To periodically review the Trust’s committee structure and consider if additional committees or changes to existing committees are needed or warranted; and
 - f. To report its activities to the Board and to make such recommendations with respect to the above and other matters as the Committee may deem necessary or appropriate.

Board Nominations and Functions

1. The Committee shall make recommendations for nominations for Independent Trustees members on the Board of Trustees (the “Board”) to the incumbent Independent Trustees members and to the full Board. The Committee also shall evaluate candidates’ qualifications and make recommendations for “interested” members on the Board to the full Board. The Committee shall evaluate candidates’ qualifications for Board membership

and their independence from the investment advisers to the Trust's series portfolios and the Trust's other principal service providers. Persons selected as Independent Trustees must not be "interested person" as that term is defined in the Investment Company Act of 1940, as amended (the "1940 Act"), nor shall an Independent Trustee have any affiliations or associations that shall preclude them from voting as an Independent Trustee on matters involving approvals and continuations of Rule 12b-1 Plans, Investment Advisory Agreements and such other standards as the Committee shall deem appropriate. The Committee shall also consider the effect of any relationships beyond those delineated in the 1940 Act that might impair independence, e.g., business, financial or family relationships with investment advisers or service providers. See Appendix A for Procedures with Respect to Nominees to the Board.

2. The Committee shall periodically review Board governance procedures and shall recommend any appropriate changes to the full Board.
3. The Committee may adopt from time to time specific, minimum qualifications that the Committee believes a candidate must meet before being considered as a candidate for Board membership and shall comply with any rules adopted from time to time by the U.S. Securities and Exchange Commission (the "SEC") regarding investment company nominating committees and the nomination of persons to be considered as candidates for Board membership. The Committee shall periodically review Independent Trustee compensation and shall recommend any appropriate changes to the Independent Trustees as a group.

Committee Nominations and Functions

1. The Committee shall make recommendations to the full Board for nomination for membership on all committees of the Board and shall review committee assignments at least annually.
2. The Committee shall review, as necessary, the responsibilities of any committees of the Board, whether there is a continuing need for each committee, whether there is a need for additional committees of the Board, and whether committees should be combined or reorganized. The Committee shall make recommendations for any such action to the Board.

Other Powers and Responsibilities

1. The Committee shall meet as often as it deems appropriate.
2. The Committee shall have the resources and authority appropriate to discharge its responsibilities, including authority to retain special counsel and other experts or consultants at the expense of the Trust.
3. The Committee shall report its activities to the Board and make such recommendations as the Committee may deem necessary or appropriate.
4. A majority of the Committee's members will constitute a quorum. At any meeting of the Committee at which a quorum is present, the decision of a majority of the members present and voting will be determinative as to any matter submitted to a vote. The Committee may

meet in person or by telephone, and a majority of the members of the Committee may act by written consent to the extent not inconsistent with the Trust's by-laws. In the event of any inconsistency between this Charter and the Trust's organizational documents, the provisions of the Trust's organizational documents shall be given precedence.

5. The Committee shall review this Charter at least annually and recommend any changes to the Board.

Adopted: April 23, 2010

Amended: June 8, 2016

Amended: June 7, 2018

APPENDIX A
VALUED ADVISERS TRUST

PROCEDURES WITH RESPECT TO NOMINEES TO THE BOARD

- I. *Identification of Candidates.* When a vacancy on the Board of Trustees exists or is anticipated, and such vacancy is to be filled by an Independent Trustee, the Governance and Nominating Committee shall identify candidates by obtaining referrals from such sources as it may deem appropriate, which may include current Trustees, management of the Trust, counsel and other advisors to the Trustees, and shareholders of the Trust who submit recommendations in accordance with these procedures.
- II. *Shareholder Candidates.* The Governance and Nominating Committee shall, when identifying candidates for the position of Independent Trustee, consider any such candidate recommended by a shareholder if such recommendation contains: (i) sufficient background information concerning the candidate, including evidence the candidate is willing to serve as an Independent Trustee if selected for the position; and (ii) is received in a sufficiently timely manner as determined by the Governance and Nominating Committee in its discretion. Shareholders shall be directed to address any such recommendations in writing to the attention of the Governance and Nominating Committee, c/o the Secretary of the Trust. The Secretary shall retain copies of any shareholder recommendations which meet the foregoing requirements for a period of not more than 12 months following receipt. The Secretary shall have no obligation to acknowledge receipt of any shareholder recommendations.
- III. *Evaluation of Candidates.* In evaluating a candidate for a position on the Board of Trustees, including any candidate recommended by shareholders of the Trust, the Governance and Nominating Committee shall consider the following: (i) the candidate's knowledge in matters relating to the mutual fund industry; (ii) any experience possessed by the candidate as a director or senior officer of public companies; (iii) the candidate's educational background; (iv) the candidate's reputation for high ethical standards and professional integrity; (v) any specific financial, technical or other expertise possessed by the candidate, and the extent to which such expertise would complement the Board's existing mix of skills, core competencies and qualifications; (vi) the candidate's perceived ability to contribute to the ongoing functions of the Board, including the candidate's ability and commitment to attend meetings regularly and work collaboratively with other members of the Board; (vii) the candidate's ability to qualify as an Independent Trustee and any other actual or potential conflicts of interest involving the candidate and the Trust; and (viii) such other factors as the Governance and Nominating Committee determines to be relevant in light of the existing composition of the Board and any anticipated vacancies. Prior to making a final recommendation to the Board, the Governance and Nominating Committee shall conduct personal interviews with those candidates it concludes are the most qualified candidates.
